# PRISMStation™ AC

Shielded airMAX® ac BaseStation with airPrism® Technology

With a die-cast aluminum base and interchangeable antenna, the PrismStation™ AC, brings increased performance to your network using technology that isolates beam communications between your devices. Utilizing Ubiquiti's advanced airMAX® ac processor, the PrismStation™ delivers throughput speeds up to 500+ Mbps and signal ranges up to 5+ km (3+ miles).

Model: PS-5AC
