Subject: Self-debriefing 360° report

Hi Ashley,

May I show you our new self-debriefing 360° report?

Unlike traditional data rich reports, our 360° Action report teaches participants a simple change model and dynamically uses the data to guide participants step-by-step in how to use their feedback to improve performance.

It should take less than 10 minutes. May we set a call time?

Sincerely,
Bruce Bennett
