

About Us

Founded by three brothers in 2010, Lulus TV is dedicated to making quality educational content for children.

We are the Lulus! We started as a YouTube channel almost 10 years ago, and continue to make entertaining and educational videos for children of all ages, from babies and preschool children to kindergarten and elementary school students. We encourage parents to watch with their children, and our channel is the perfect place to sing, dance, and learn!
