Crafted to Last

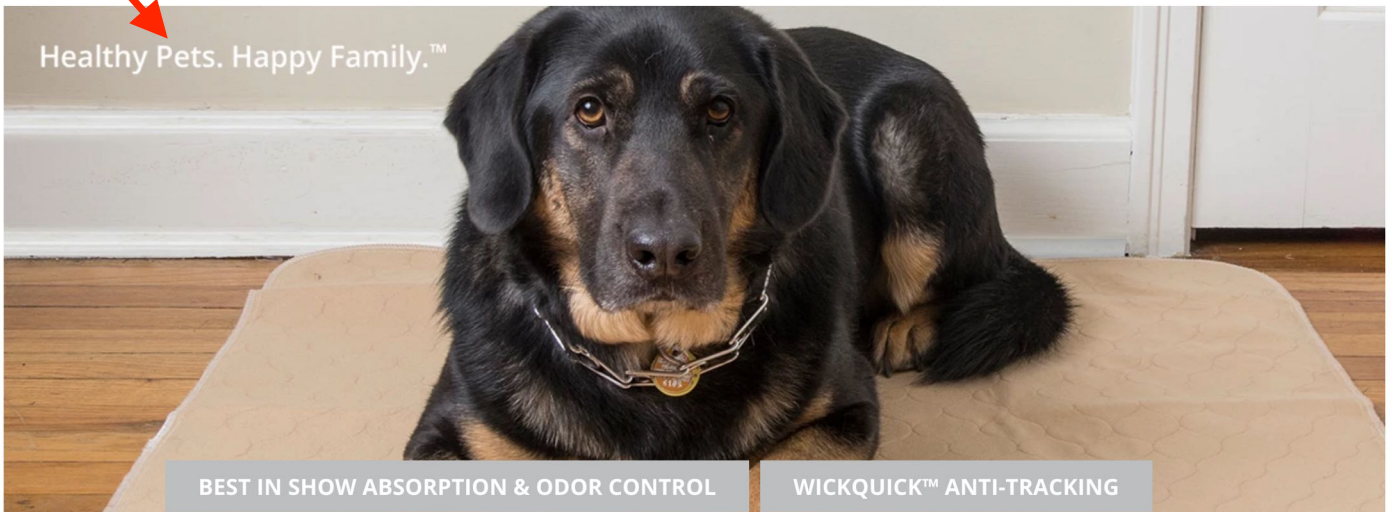

Triple stitched binding for durability & prevent spill over

Washable

Countless washes, saves you \$ 1,000s compared to disposable pee pads

Environmental

Do you want to fill up a landfill of puppy pads? We don't. Go green. Go washable.

STICKYPAW™ = NO SLIP

WASHABLE PEE PADS

Best in Class Absorption and Odor Control

Pet Parents® premium dog pee pads packs in the fluids, whether a great dane or chihuahua, we've got you covered. Our WickQuick™ proprietary fabric blend quickly wicks & holds more liquids per square inch than the other options on the market.

So Many Uses. One Convenient Pad.

Pet Parents® premium washable dog training pads are perfect for housebreaking puppies, protecting crates, pet carriers during trips, whelping pads, incontinence dogs, protecting furniture from pet fur and smell, lining kennels and playpens, post-surgery, under food bowls or litter boxes, and easily folds up for convenient and mess-free travel!

WICKQUICK™ Anti-Tracking

No one wants messy paws making a mess throughout their house. That's why our washable pee pads utilize the best fabrics available to suck in, lock in, & prevent your fur baby from tracking their mess everywhere.

STICKYPAW™ = No Slip

Our dog training pads are waterproof, leakproof, & our StickyPaw™ backing grips the floor providing an anti-slip grip. When you say, "STAY!", it stays. Our premium puppy pee pads are the perfect product to protect your hardwood, tile, carpet & rugs from unwanted messes & stains!

Washable Pee Pads Vs. Disposable

Not only are our pee pads for dogs going to save you from messes that could cost you a lot of time or money, but are far more economical compared to disposable puppy pads. You may be wondering, why washable? Here's why: 1. One time cost vs. recurring cost. Spend once, save \$1,000s. 2. Puppies love to shred disposable pads for dogs, which means a huge mess for you & wasted money on replacing them. Our durable whelping pads are triple stitched & won't be shredded. 3. Modern, Neutral, & Will blend in. All disposable dog pads are ugly & will draw unwanted attention. No more explaining to your friends what that white thing is on the floor. 4. Environmental, do you want to fill up a landfill of puppy pads? We dont. Go green. Go washable.

WASHABLE DOG PEE PADS REVIEWS

Super absorbent & my dog uses it!

So far a great product. Holds up to the pee test. My senior dog loves it. Have already **washed and dried several times and they still look great. Very pleased with the product.** They also look great laying on floor by back door, not like the unsightly paper pee pads. Also the perfect size for your dog to stand on and wipe there feet after coming in from the rain. So kinda multi purpose, no more towel thrown on floor when it rains.

- D'Ana D. Pedigo

Great for keeping our house clean

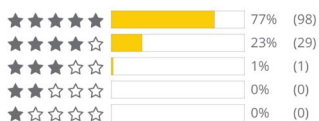

Extremely high quality material, and absorbs incredibly well. Has washed perfectly numerous times. I've bought similar items from other brands and the others do not last or work very long. **The material on these is noticeably superior and lasts through a lot more uses. When I need more, I will definitely buy from Pet Parents.**

Washable Dog Pee Pads a real help when having an older dog

I am so glad that I purchased these Washable Pads. They work as advertised and prevent a mess that she is unable to control due to her age. They wash and dry easily - ready to be reuse. I would totally recommend this product.

awesome product

i use these for my 80lb lab because im gone a few days for 12 hours a day. She got trained on these immediately and they hold a lot of pee and dont stain

Love them

I love them! I am currently using the pee pads for under the water dish and on the ottoman! The elk antler lasted only a day so I will have to get a full one next time!

Perfect training pad for indoor dogs

Took about a week of many trips to the pad for our yorkie, but she now knows what the pad is for. Even uses it while traveling, hotels etc. We have 4 mediums as she repositions during her business, saves misses. Change daily no oder. Piles are picked up and flushed immediately.
