Just want to thank you again for the know thyself reading you conducted for me. It was encouraging, enlightening AND so gentle. It is amazing how it confirmed so much that I always felt was true as well as pointing me in the direction I need to follow. Even in sharing with me those areas in which I need to dig deeper. I feel I have a lot more clarity. I have conversations with a friend, gentle and loving attitude. The work that you are doing to heal our community is FREAKING AWESOME! I look forward to learning and growing with you in future readings.

Carlynn James

Having a karmic name reading by Ra Dami Arly Tempus has been the most empowering thing I've ever done! Discovering the name was such a relief and the name that resonated the most gave me a sense of purpose. Now, I really understand why things happened in my life why I responded the way I did and what to do now to live my life according to my highest good. I am forever thankful and appreciate you for being available and patient as I learn more about my destiny and in turn you! Due and love Ra Dami Tempus for her help, you are a life-saver!

Isabella S. Roberts, Charlotte, NC

I consulted with Vali Rogers on December 21, 2015, looking to choose a company for the coming year. During our time together she shared the importance of building an impactful and enduring tradition. I looked at the list she sent my life is so much better! I look forward to getting up most mornings before sunrise, even on weekdays, to get my morning ritual. Doing this is like breathing, essential to my life. I am grateful for this time spent with you. Transformation work will be eternally grateful for her gifts.

Kambry, Washington, DC
