★★★★★ Perfect for our family electronics charging station

February 10, 2020

Verified Purchase

This power strip is perfect for our family charging station. We had a basic \$6 power strip and it just wasn't doing it. So worth the upgrade. Now we have plenty of spots to plug in all our electronics and having the extra USB ports are really a game changer. I love the way it looks and was so excited to set it up. It also has a 10 ft cord which is amazing because our house has limited outlets so we have the freedom to put it wherever we want without extra extension cords. Definitely recommend this it's perfect for what we needed.

This is an awesome power strip tower. I purchased it for my self to use on my work desk. This is great, it's very useful. The quality of the item is really good. I am used 5 sockets and 3 USB side at the same time, so it's worked great. I really liked it. I glad to find it.

All in one functional and attractive unit. The long power cord was an important factor. The wide spaced outlets permitted me to use my wi-fi controllers. I could keep going since I am all-in-all pleased with this cost effective solution to my needs.

I'm using it in my office so I use 6 sockets at a time and all works great, but I didn't thought it was so huge
