#### Dual Arc Electric Lighter USB Rechargeable with Battery Indicator, Flameless Windproof Plasma Lighter for Outdoor Fires, Camping, Survival

★★★★★ 29 ratings | 6 answered questions

\$14.99 (\$3.27 / Ounce) **FREE Shipping** on orders over \$25.00 shipped by Amazon or get **Fast, Free Shipping** with Amazon Prime. **Save \$1.50 on this item** when you buy and fulfill by Amazon.

**Beveled Design** - With just one click, the lighter generates sparks instantly, its can ignite easily. The arc output port has insulated ceramic for safe use.

**Dual Arc Ignition Design** - This electric lighter has a clever ignition head, which keeps the ignition from being blocked by the cover, so that you can ignite the object more easily and accurately.

**Indicator & USB Rechargeable** - The plasma lighter has 4 LED battery indicators, which can display the status to remind you to charge in advance; it can be charged 70-100 times on a full charge.

**Windproof & Flameless** The sparks produced by this USB electric lighter are flameless. It does not require butane and can be used in harsh environments. It is an essential item for outdoor adventure, and survival.

**Sturdy** The shell of the lighter is made of zinc alloy and covered with a layer of PVD coating, giving it a cool appearance and very strong ability to protect the core.

**\$14.99**

★★★★★ Convenient and nice design, great gift for men

Reviewed in the United States on February 13, 2020

Verified Purchase

The design is pretty unique. And it's electric, so chargeable is so super convenient and I dont have to worry about having gas leaking out somewhere. Cool led lights and easy to use. It comes in nicely in a gift box with a little metal card label and everything that needed included. Having nothing to complain about, recommend!

Such a cool little thing!  
I always saw these on youtube and figured why

not... it seems pretty cool to try and it definitely is. I was able to get some cool closeup shots of it in action... it seems to arc the current between two points? Which i'm guessing causes the plasma to form.

Things to note:  
it does make a hissing noise and it gets louder if you blow on it... but it does not turn off  
It charges super quick which is surprising for the amount of power it has to use to have a spark

And, it lights stuff really quick. Pretty impressive little thing!

This is a really great electric lighter. I liked it's style. The high quality product. It's comes inside a cool box. The one of the good features is the battery life is long. This is first time I am using a electric lighter, I am really happy with it. When you hit the button on the side it's start to working.

★★★★★ **Elegant and futuristic**  
Reviewed in the United States on February 10, 2020  
**Verified Purchase**

Upon receiving it and taking it out of the box I loved it works very well and it came as described. I bought this as a gift for my dear husband who smokes and is always outside. With just one click, the dual arc lighter instantly generates sparks and could easily ignite objects. Awesome designed. I really like this lighter for the most part because of its design and quality and because of its good manufacturing it has an intelligent angle ignition head, which prevents the cover from blocking the ignition, a housing made of zinc alloy and covered with a PVD coating layer, which gives it a strong and smooth appearance. In addition to how great and elegant it is and what it does, I love blue LED lights. It looks very futuristic. The light is bright and indicates that it is on and shows the battery charge. I loved it and my husband is great and very avant-garde. I would not hesitate to buy it again .

★★★★★ **Nice lighter**  
Reviewed in the United States on February 15, 2020  
**Verified Purchase**

Got it as a gift for my dad. He had similar, lasted for couple of years. So he wanted another one. Chose this one. Works good. Lights up with no problem. Looking cute. Charges easily. Lasts pretty long time before next charge. Has convenient lights on a side to show how much charge is left. My dad is satisfied.

★★★★★ **Simply put, it works like expected**  
Reviewed in the United States on March 2, 2020  
**Verified Purchase**

This is my first Arc lighter. I had heard a lot of good things about these and wanted to give it a shot. IT IS as good as I had heard. The battery option is quite nice as I don't have to deal with butane. The arc is clean and obvious as you can see in the image. Works as expected with regards to lighting up most household items like stove, fireplace etc. My friend who smokes liked how easy it was to light up his cigarette in windy conditions here in the Midwest. And it comes in a nice box so gifting is easy.

★★★★☆ **Elegant style!!**  
Reviewed in the United States on February 17, 2020  
**Verified Purchase**

I bought this lighter because found your ad attractive and its value is very economical, after receiving it was amazed with the details in design, beautiful mirror chrome, its Box memorable, light weight, easy to use, rechargeable usb port, button illuminates when opening the lid, until now the battery has not failed Me, simply epic to find a solution against strong wind, my cigarettes quietly without impediments would certainly continue using this device in the future.

ana gabriela beens

★★★★★ Its innovative!  
Reviewed in the United States on March 1, 2020  
Verified Purchase

I loved, its elegant and delicate design. It is a lighter that fulfills the functions of any other, but it does not use gas and is good with the environment. After making the full charge, it can last 1 week without requiring another charge. It is an option to contribute a little with the environment and at the same time be the center of attention by having such an innovative lighter.
