## Why iV infusion?

iV infusion delivers vitamins and minerals directly into the bloodstream offering superior absorption over oral supplements. We offer several pre-formulated solutions to address a variety of ailments: immune system strengthening, anti-aging, optimal athletic performance and recovery, metabolism boost, hangover and headache relief, cold and flu symptoms, chronic fatigue, and brain fog.

## Who can participate?

It will depend on your medical history if you can participate in iV Infusion. Your safety is our number one priority. If you have any concerns, please ask an iV infusion specialist.

## How quickly will I feel the effects?

This will vary on a case by case basis. iV infusion is meant to flush out your system and receive nourishment where needed. If you do not feel a difference right a way it does not mean you did not benefit from the iV infusion. Your body will use what is needed and dispose of what is not absorbed through waste.

## How often can I do it?

To ensure maximum benefits from each iV infusion, you can receive an iV infusion once a week.

## Booking an iV infusion Party?

iV infusion parties are meant for groups of 6-10 people. This is perfect if you're about to spend the weekend having "fun"

IV infusion parties are meant for groups of 6-10 people. This is perfect if you're about to spend the weekend having fun or right after a weekend of having too much "fun". Group specials are available. Find a location near you.
