

ASCEND

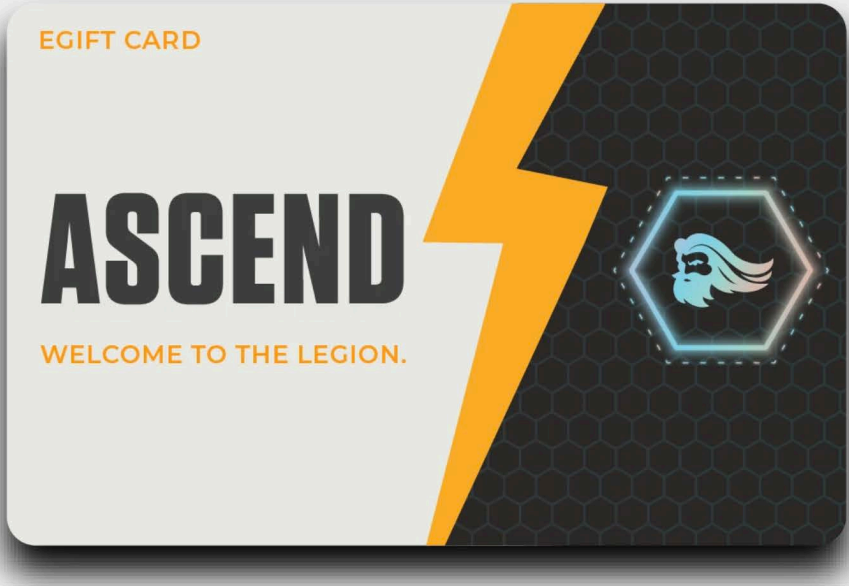

Glorious PC Gaming Race was conceived by passionate PC gamers fed up with low quality, over-priced gaming products that delivered more flash than function. The mission was to create unique gaming accessories, engineered for premium quality and elite-level performance, sold at everyman prices.

Forged in 2014 from an online community of PC gamers, GPCGR has been challenging the industry with products catered to the needs of serious players who demand the best.

We claimed our fame with the world's best over-sized gaming mouse pads. Then we turned the peripherals market on its head with the world's first "Modular Mechanical Keyboard" with hot-swappable switches. Along this path to glory, we've been joined by over a million loyal users, captivated by unparalleled performance, reliability, and customer service.

We're just getting started! Ascend your battle station. Join the Glorious
