Packaging is a horrible.

One star due to packaging. Five for product itself. SMALLRIG, why so much plastic? It's a metal handle with a hex key. Do the planet a favor and wrap it in tissue paper. Plastic inside of plastic and then a main plastic bag isn't needed for what this is. Come on.

That being said really love this handle. Very nice add on for when I'm not using my gimble. Allows me for once to use my monitor and mic without a cage.

Best Top Handle I Own

Reviewed in the United States on June 21, 2018

Hands down, my favorite top handle ever. I would give this thing 6 stars if I could. I bought it for my GH5S cage and am buying a second one because I tried it out on one of my Canon cinema cameras instead of the wobbly handle attachment and it's AWESOME. I can attach a Rode mic, monitor, 15mm rod etc.. and it's rock solid. I absolutely love how sturdy it is and the tightening mechanism on it. For the price, this is a no brainer. Buy it! I used to think SmallRig made the best stuff for budgets. Now I just think they make the best stuff, period.

Good to go

I bought several handles for my small rig cage, and I believe this one is a good balance between price and performance. I like the way it looks, it's not as heavy as some of the other handles, and it's medium priced. Having said that, I think most of these handles ,cages and the like, are very much overpriced and overrated.

Small size but can't handle big jobs

Well They did it again! I really like this handle it does a lot to be the size that it is. Very strong and plenty of places to add many accessories. I build custom rigs and this will be on the top of my list.

No slipping!!!!

This is a phenomenal product. The build quality is top notch. When you put it on the hot shoe there is no wiggle at all. Really great for getting low shots. It's given my videos a much different perspective. Also love the lock on the cold shoe which locks down and prevents thing from falling out

Fantastic handle and very durable.

Reviewed in Canada on November 3, 2019

Although the handle adds height, it's absolutely great. Easy to use while filming, and it's a great alternative to adding an entire cage. Small rig stuff has been great. The handle seems very strong and doesn't wiggle in the hot shoe mount.

Great for video, especially handheld. My only concern is the height of the unit with this on, but you can work around that.

Good quality but not for me

Reviewed in Canada on December 27, 2019

Verified Purchase

Not for me. I have several Smallrig products and love them but this top handle I returned because of the way it's shaped. I prefer a handle that has a 90 degree angle as it feels better balanced. A good quality product but didn't fit my needs/usage.

Se ajusta muy bien a la cámara. Puedes usar dos posiciones de grip, lo cual ayuda mucho dependiendo de tu cámara. Le he montado micrófono, luz led y monitor al mismo tiempo y todo estable.

Very compact tight setup, works great! Everything Smallrig makes is top notch quality. I use it on my Fuji XT-30 for b-roll and to mount a microphone.

Worth the money, won't slip out of the cold shoe mount.

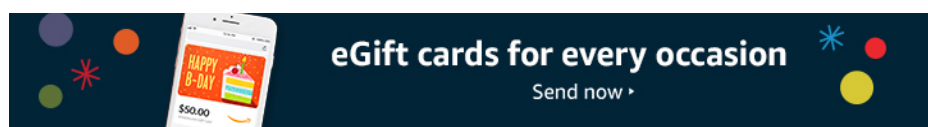

Reviewed in Canada on June 3, 2019

The fit and finish is great. I use it on a Nikon d7000 and the Nikon Coolpix A. Main purpose for this purchase is to have run and gun hand held capability for shooting video. A top handle gives you better handling then the side grip of the body.
