I am very happy to got this light!

I used it for my my bull-barreled .308. The clamp that it comes with is simple but effective. The light was brighter than expected, in particular i can get a spotlight or floodlight by adjusting the flashlight. The battery is very durable!

I bought this product for coyote hunting and it works amazing.I can spot animals from over 300 yards and they never even act like they are spooked. The green light is bright enough to see anything I want without spooking them. Overall this light is a great product.

This light exceeded my expectations. I don't know if I am just lucky, or if most of these are this nice, but mine is excellent.

First,the light itself is robust, and very bright. It lights up my shooting area nicely at 300 yards. I can see my crosshairs very well.

Second,the batteries and charger work well. I think that the charger is a quick charger, but I'm not sure.

Third,it comes with two backs, one with a pressure switch on a coiled wire, the other is just a regular flashlight rear with a traditional switch.

This is a cannot miss product for the price.It's a super great buy!

This is a nice hunting accessory. This flashlight is extremely powerful with great visibility. I use this for hunting and walking to my blind when it's still dark out. Also it's easy to install on my breach shotgun for work and I love the ease of the off and on button. I strongly recommend this light whether you are a hunter or in law enforcement.
