It's still early, but Garcia has been encouraged by the startup's progress. Finhabits is growing at 20% month-over-month, with the strongest headway in Texas. The majority of users are setting up recurring deposits, at an average of \$40 per week. For

It is growing at 20% per month

1. The majority of users are
 - a. setting up recurring deposits,
 - b. at an average of \$40

"Expert advice should be accessible background and portfolio balance,

Lucia Islas, a Texas resident born in Mexico, exempines the type of customer that Finhabits hopes to win over. "From a very young age, I was taught to work really hard," she says. "But I don't think I was ever taught to save and to think about the future."
