**Soap dispenser**

Reviewed in the United States on March 4, 2020

**Verified Purchase**

I bought this soap dispenser so that I could buy a big bottle of soap and dispense the soap from it. The soap dispenser was not too difficult to refill. The pump is pretty good and it pumps out a good amount of soap. The material looks good.

Like this stainless steel hand soap bottle, cool metal texture. Rich luster is very modern. Easy to clean.

**Not rustproof**

Reviewed in the United States on January 24, 2020

**Verified Purchase**

One month after purchase it is now starting to rust. Also the spout will spit the soap all the way across the room if you don't put your hand right over it. Surely there is a rust proof soap dispenser out there somewhere I will continue to research.

**Very nice looking dispenser**

Reviewed in the United States on April 16, 2020

**Verified Purchase**

Very nice looking soap dispenser. It has a non skid bottom so it doesn't move or turn over. It dispenses just a little soap each time so I have to pump it twice to have a decent amount of soap, but I like it because that way my kids don't waste the soap when they use it

**Clean style with a matte brushed finish.**

Reviewed in the United States on April 13, 2020

**Verified Purchase**

My wife and I have dual sinks but only one soap dispenser so I ordered another one for "social distancing" purposes.. :) this dispenser has a nice clean look and it gets the job done. It is important to know that this is more a matte brushed look (close to a brushed nickel finish) not a polished chrome type finish.
