## Nashville's Newest Coffee Shop, Anzie Blue, Is One Of The Most Beautiful Spots In The City

Most folks know that Nashville isn't at a loss for coffee shops. The city exploded onto the map in the early 2010's, opening spots like Barista Parlor and Crema that made national news with their high quality brews. Anzie Blue, however, has an atmosphere that beckons lovers of contemporary design and is the first upscale CBD retailer in the city. Boasting a streamlined space and great coffee to boot, this just might be your next spot to visit come time for your morning cup of joe. Check it out below!

We're aware that these uncertain times are limiting many aspects of life as we all practice social and physical distancing. While we're continuing to feature destinations that make our state wonderful, we don't expect or encourage you to go check them out immediately. We believe that supporting local attractions is important now more than ever and we hope our articles inspire your future adventures! And on that note, please nominate your favorite local business that could use some love right now: <https://www.onlyinyourstate.com/nominate/>
