

Accept Payments in Almost Any Format

Pinwheel is integrated with most major payment providers and the list is always growing. Accept most major payment types. Customers need an alternative payment solution? There's a good chance we can facilitate your (and your customer's) needs.

Visa, MasterCard, and Amex

Most of your customers are going to use one of the three major credit card providers, or debit cards that are issued through Visa. Accept all major card types and offer your customers the easiest way to pay.

Reports that Work for You

Reporting is about data and feedback. It's also the way you keep track of how your business is doing. Pinwheel's reporting is based on need and requirement, rather than overwhelming amounts of data. We provide you with the tools you need to produce the reports that are useful to you, and leave out the information that doesn't matter.

Mobile Payments

Our engineers can integrate with most mobile payment solutions, and we can even provide custom payment solutions for your specific business needs. Do you have mobile payment requirements? We've got a solution that will work for your Android or iPhone application.
