## Our Services test

### Strategy and Program Development

An Important First Step in Transitioning Your Organization to a World Class Privacy and Security Model

Kuma has the credentials and expertise to help you develop a best of breed privacy and security program and make a deliberate commitment to security and privacy excellence.

[Learn more](#)

### Privacy, Security and Identity

Better Decisions Means Better Outcomes

Kuma will work with you to conduct privacy risk assessments for your organization, programs, and technological solutions and provide insight into privacy implications for individuals and the organization, offering the opportunity to make risk-informed decisions.

[Learn more](#)

## Incident Response Management

Don't Wait Until Data Gets into the Wrong Hands to Act

Kuma offers unparalleled expertise to guide an organization through a methodical organizational plan for the prevention of, planning for, and readiness to react to an unauthorized acquisition of data that compromises the security, confidentiality or integrity of personal information collected, processed, stored, transferred or disposed of by the organization.

[Learn more](#)

## Training and Awareness

A Major Determinant of Success for Your Security and Privacy Program

Developing a sound security and privacy program is a crucial step in establishing a culture of privacy and mitigating harmful and costly risks. Without company-wide training and awareness, you run the risk of low levels of stakeholder adoption and insufficient understanding of its importance.

# Digital Identity

Kuma's resources come from a strong background in identity management within the federal government and commercial sectors. Our experience ranges from solution development, trust framework development, and identity solution implementations ranging from registration, authentication, authorization, and attributes.

We work with your organization to develop and implement identity solutions, as well as provide objective guidance on which identity solutions best fit your mission.

Our full range of Digital Identity services include:

- Digital Identity Ecosystem Bootcamp/Training
- Digital Identity Strategy Development
- Go-to-Market Strategy
- Relying Party Engagement
- Proofing & Authentication Solutions

# Vulnerability and Threat Intelligence

Kuma will provide automated tools and manual analysis to uncover unique/obscure vulnerabilities that automated tools fail to detect, maintain an inventory of missing patches and systems/applications that have reached end-of-life status, harden operating systems and third-party applications, identify improvements for network segmentation, evaluate security monitoring and incident response capabilities, locate rogue devices in the environment, demonstrate the true business impact of compromise, expose deficiencies in authentication mechanisms, demonstrate return on investment of internal security initiatives, discover publicly accessible information that could be leveraged in targeted social engineering attacks, reveal gaps in data egress filtering, and obtain evidence for initiating organizational change.

Specific activities include the following:
