[Description](#) [Reviews](#)

20oz Tumbler has triple-insulated, stainless steel vacuum technology, including an inner layer of copper which prevents heat transfer to the outer walls. This gives you additional hours of insulation over competitor travel cups. It'll keep hot drinks hot and cold drinks cold.

In addition to the bonus lid, this thermal cup set includes 2 stainless steel straws, a cleaning brush, and a linen bag for easy storage. Plus, our insulated travel mug also comes with a removable, color matching handle.

Our travel cup comes with two lids: a splash-resistant, spill-proof sipper lid with a straw and sipping-friendly drinking hole, and a bonus, ergonomic slider for easy closing.

After-sales Service: If there is any problem in the process of using the product, please contact us first. We will reply to you within 8 hours after receiving your email and help you to solve it to your satisfaction.
