- **[Quick & convenient for hair style]** The hair straightener comb uses ceramic tooth comb to heat the hair 360 degrees to shorten the styling time. In addition, the straight hair comb can be heated to the required temperature within 60 seconds. It is an indispensable styling tool in a busy morning or in traveling.
- **[Ionic hair comb and hair straightener 2 in 1]** It is not only a hair straightener, but also a negative ion comb that protects the hair. Compared with the hair straightener, the multi-row comb teeth increase the heating area, reduce the molding time, and are easy to use and to operate. When the switch is pressed, the straight hair comb produces negative ions, which counteract the static charge of the hair and smooth the hair.
- **[PTC rapid heating & anti-scalding end]** This straight hair comb adopts PTC rapid heating technology, which can quickly reach the ideal temperature after starting up, and the five-speed temperature can be adjusted. The comb has an anti-scalding end that does not cause damage to the scalp.
- **[Humanized design and excellent gifts]** The LED display shows digital temperature, 360-degree rotating wire prevents twisting during use, and heat-resistant gloves are provided in the package for safer use. Suitable for thick, thin and frizzy hair. It is also a great gift for friends, lovers and girlfriends.
- **[Quality Service]** The warranty period of HOCOSY brand is 12 months (from the date of purchase). During this period, we provide refund and replacement service. If you have any questions about the product, please feel free to contact us at support@hocosy.com
