XTerminator

Our Story

XTerminator is committed to creating innovative products with superior quality and utility for today's needs. Since our company was founded in 1987, our focus has been to combine cutting edge technology and design with unmatched value. Over 30 years later, this remains our focus and vision. At XTerminator, we understand what it takes to create best-in-class products and search tirelessly for ways to make our customers' lives easier.

Our incredibly effective ultrasonic pest and mosquito repellers are perfect for keeping your home pest free. Engineered with a compact design and equipped with powerful, high frequency sound waves, pests and mosquitos will flee. The result is being able to enjoy family time without worrying about pests and mosquitoes. XTerminator has you covered.

Not only do our ultrasonic pest and mosquito repellers give you peace of mind, but our kid-friendly bug zappers help patrol your backyard. With high voltage metal grids, our triple-layered metal gauze bug zappers make bugs think twice about messing with you and your family.

All of our products are chemical-free and safe around pets and children.

At XTerminator, we stand behind our products. Our 2-year, limited warranty is the industry standard. With XTerminator, you get the best products on the market. They are engineered to be so.
