WHO WE ARE

Job seekers today have become more and more agile, creating a workforce with new rules. They don't stay at the same company for their whole career. They embrace modern ways of working. They value their freedom and flexibility. Sound familiar? This new independent mindset and nontraditional workstyle is here to stay, and smart companies are embracing it so they can connect with the best of the best. We're proud to help modern organizations achieve the growth they're looking for, and to give talented people a community where they can grow and thrive. Let's see what we can all achieve together.

OUR ULTIMATE GOAL

Our ultimate goal gives words to what we feel and what unites us as a company. It is what we believe in and where we want to go. It will not be an easy goal to achieve, but it motivates us to move forward. Our core values form a solid basis for this goal. We also take our sustainability basics seriously: corporate citizenship, safeguarding labor & human rights and taking environmental care.

We will connect with people beyond search, selection, staffing and recruitment. Through our smart solutions and online platforms, we aim to be present at all stages in people's careers, consistently improving their employability and providing training opportunities where this is appropriate. In today's fast changing world, new technologies, tools, and solutions are redefining the way we interact with people. We combine this with the most important we have to offer: our human touch.

Customer Care Manager | Web Marketing Company

Working with TajaM has been one of the best decisions our company has made. They graciously allotted time to really understand our needs, visit our workspace, and get an idea for our "perfect candidate."

Manager | Financial Services Company

TajaM takes the time to sit with us and get a good feel for the position and what it requires and always finds the perfect fit. We have hired many team members from TajaM and they tend to be our highest performers and have a solid work ethic.

Recruiter | IT Management Consulting Firm

Our primary point of contact from TajaM is brilliant. He works on last minute requests for us, always comes through, stays upbeat and keeps the technical recruiting team motivated when we are less than speedy to respond; definitely a "Recruiting Partner" in the true meaning of the word.
