ABRACADABRA MUSIC FESTIVAL

For 3 days full on, we're bringing audiences a highly curated mix of mind-blowing sounds from DJs & artists around the world. This is more than just an online music festival - it's an embodiment of our best possible selves, mirrored through music, wellness, yoga, 3D sound exploration, meditations and more, with intervals of magic & mentalists and a few surprises to stoke your childlike curiosity. This weekend is for anyone ready to connect the dots between the power of sound and action; to restore balance between us and this wide, wild world.

ECOLOGICAL RESPONSIBILITY

ABRACADABRA Virtual Festival is also a FUNdraiser for Bye Bye Plastic, the grass roots organisation on track to remove single-use plastics from the music industry by 2025. Dreamed up and led by Vivie-Ann Bakos AKA BLOND:ISH, BBP has inspired thousands of DJs and event promoters on the journey to #PlasticFreeParties with their Eco Rider, onsite activations, beach cleans and innovative research since launching in 2018.

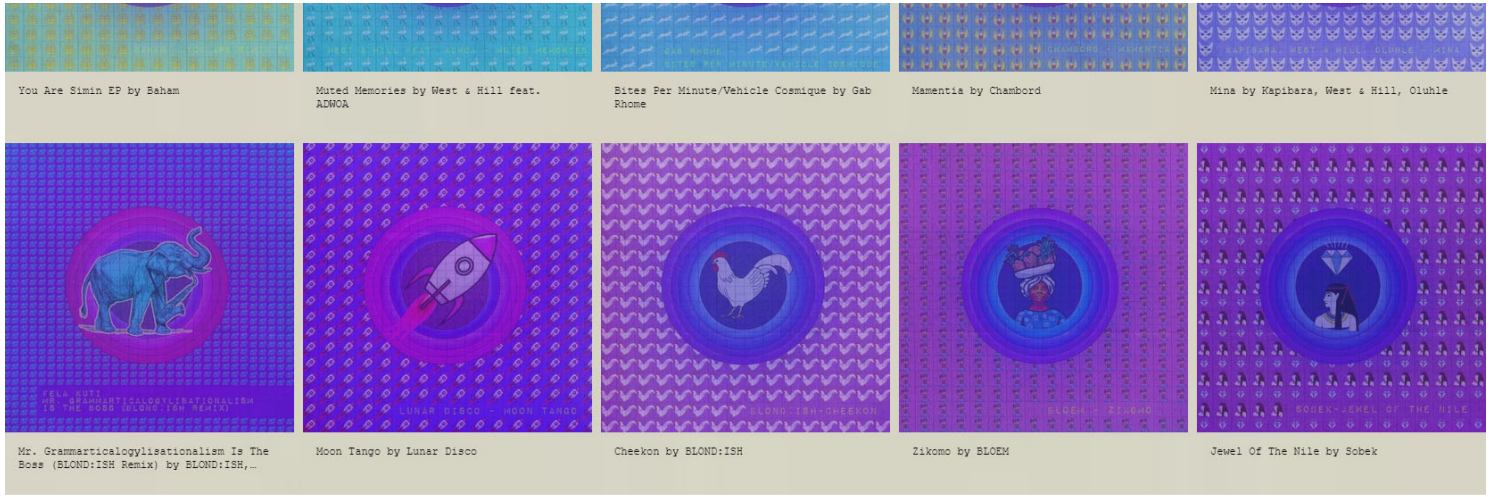

ABOUT ABRACADABRA

ABRACADABRA was born January 2017 in Tulum, Mexico. Created by Vivie-Ann Bakos AKA BLOND:ISH and Liana Hillison, who came together with the intention to combine ancient wisdom with modern day philosophies to create magic. Our vision unfolds by uniting the most curious and innovative minds and souls, artists and musicians, friends and lovers in magical locations.
