Coming Soon....

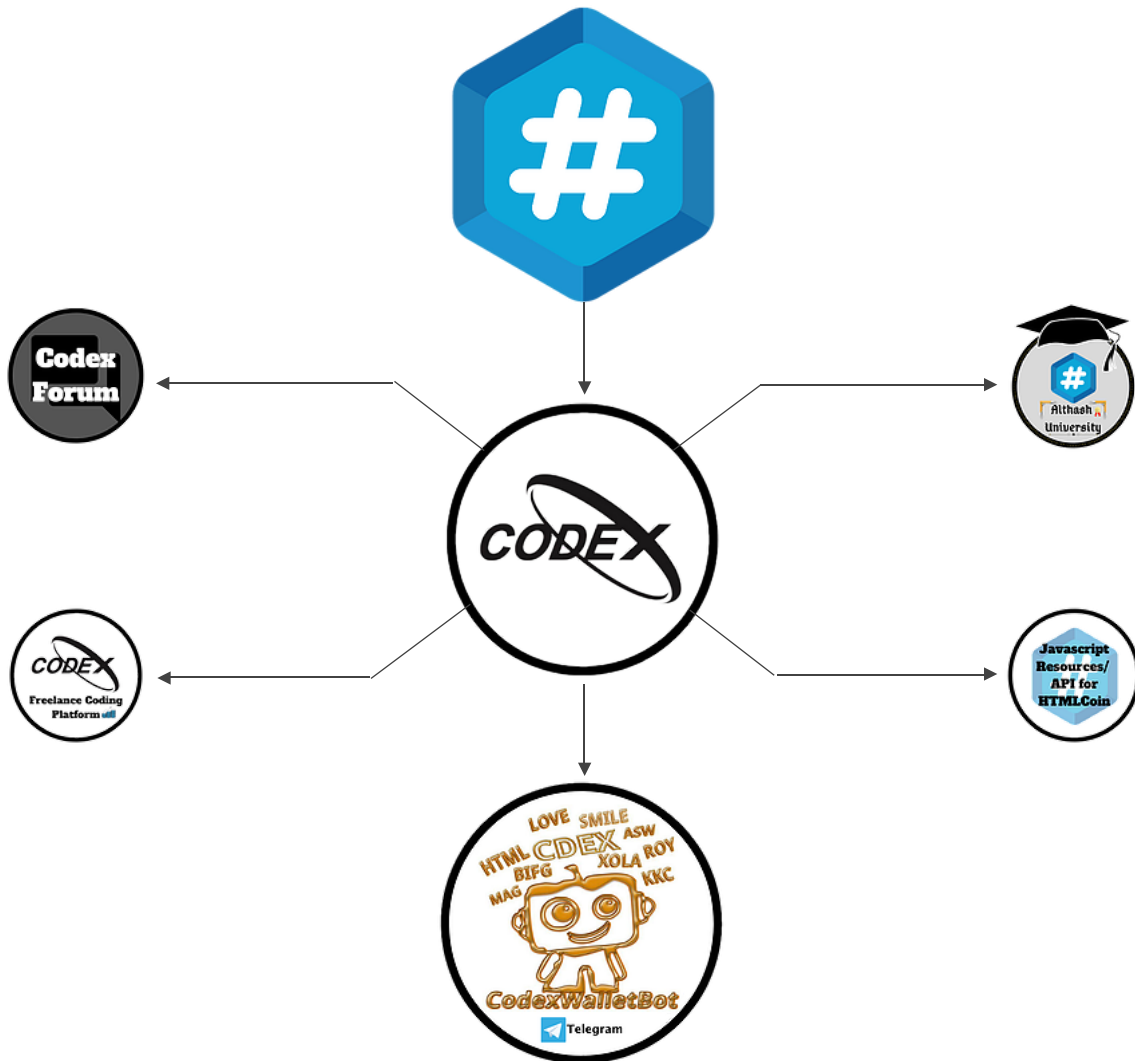

The platform aims to connect:

- Freelancers
- Programmers
- Coders
- Applicators, software and blockchain engineers
- Those into AI technologies
- Anyone in the progressive- technologies industry

By using the 'Codex Freelance Platform', developers are able to network by listing jobs or accepting jobs listed. This creates an environment of like-minded, hardworking freelancers working at a common goal, to create high- value software and applications for Althash.
