#### Frequent Stops Report

Use fleet GPS tracking to validates vehicle stops and provide proof of service to clients

#### Scheduled Reports

Critical reports to Inbox – Automated custom reports can be scheduled to run daily, weekly or monthly

#### Real Time Data

Instant vehicle location- Learn how EVERY minute of each day is spent

#### Dispatch

Save on fuel costs by creating optimized routes with Dispatch. [GPS fleet tracking for small businesses](#)

#### Tampering

Your Plug & Track GPS modem will alert you if it is unplugged making it virtually tamper proof. You simply set an "Alert" on the Plug & Track GPS mapping platform

#### Speed Threshold

The device can be set to alert you whenever the vehicle exceeds a certain speed

#### Rapid Acceleration

Indicator of aggressive driving, the [GPS tracker](#) also provides the rate of acceleration of the vehicle and alerts you when the vehicle exceeds a safe threshold

#### Harsh Braking

The device tracks the rate of deceleration of the vehicle, a major indicator of aggressive driving, and alerts you when the vehicle exceeds a safe threshold

### Maintenance Alerts

Easily schedule maintenance reminders at regular intervals by either time passed or miles traveled for each vehicle in your fleet. Making it easy to keep on top of maintenance for your fleet of vehicles

### Maintenance Alerts

Easily schedule maintenance reminders at regular intervals by either time passed or miles traveled for each vehicle in your fleet. Making it easy to keep on top of [maintenance for your fleet](#) of vehicles

### Idle

The device can be configured to alert you when the vehicle has been left stationary with the ignition on, which can be expensive and wasteful

### Idle

The device can be configured to alert you when the vehicle has been left stationary with the ignition on, which can be expensive and wasteful

### Geofence

The Software can be configured to alert you when the vehicle travels into, out of, or both in and out of a customizable area. This can be useful for tracking employees with specific locations they must visit, or a teen driver on their commute to and from school

### Geofence

The Software can be configured to alert you when the vehicle travels into, out of, or both in and out of a customizable area. This can be useful for tracking employees with specific locations they must visit, or a teen driver on their commute to and from school

### Ignition Events

The device instantly tracks when the vehicle ignition turns on and off

### Temperature Monitoring

Gpsnvision offers multiple real time temperature monitoring solutions for refrigerated trucks and trailers. Using our accurate fixed mount digital temperature sensors integrated with the Queclinks telematics units or portable temperature monitoring solutions to be placed in temperature sensitive shipments such as Reefer trucks transporting food. The temperature reading is being sent to the Inteltrack server and is being displayed with high and low temperate settings. In parallel, alarms can be sent via e-mail, SMS and in-app pop-up notifications.

### 4G LTE

4G LTE connectivity. Tamper resistance with backup battery. 3 wire installation (power, ground and ignition). Small 2.25" W x 3.25" L x 0.5" H

### Driver ID

Know which driver is driving what vehicle, when, and for how long. Be in control by identifying the driver of each vehicle so you can separate vehicle data from driver data, which allows reporting by driver as well as by vehicle. This is particularly useful for businesses that operate a fleet of vehicles across many drivers who do not use the same vehicle each day.

## WHY CHOOSE GPSNVISION.COM

- 1 No contract required
- 2 Plans options according to needs
- 3 Great support
- 4 Affordable prices
- 5 Apps for Iphone and Android
- 6 And much more

## 4G LIVE VIEW DASH CAMERA

Gpsnvision's 4G Live Dash Cam enables you to view real-time videos, audio and GPS location of your fleet. Using dual camera technology, you will gain insight into your driver's behavior and what your driver sees.

## GPSNVISION PRIVACY POLICY

Gpsnvision.com respect your privacy – all information that we gather is used exclusively for giving a service to registered users. Gpsnvision do not market or otherwise reveal your information to third parties; your information gathered within Gpsnvision is not used to target ads. Gpsnvision do not divulge your location data without your authorization.

### USEFUL INFO

No Contract

We think there's enough  
contracts in your life to add  
another one.

Cell phone contracts

Cable contracts

Gym membership...

We give you the best  
incentive to provide you with  
the best service, since we  
don't lock you into a 3-5 year  
contract, we provide stellar  
service to keep you as a  
customer Month after Month.

Others that lock you into a  
long term service contract  
have no incentive to keep you  
happy.

Why do I need a monthly  
service plan?

Will Plug & Track GPS  
work in my vehicle?

Gpsnvision - Affordable GPS Fleet Tracking for Small  
Business Owner!
