### Product description

Color: Brown Gradient

"

#### WHAT IS BLUE LIGHT?

Blue light is everywhere and is naturally emitted from the sun as part of the visible light spectrum. Natural blue light can be beneficial during the day because it can boost alertness and elevate your mood. However, with the rise of artificial blue light emitted from our digital screens, our bodies are being exposed to a surplus of harmful digital blue light.

#### POTENTIAL SIDE EFFECTS:

1. Blurred vision

- 2. Tiredness
- 3. Headaches
- 4. Red/irritated eyes
- 5. Eye strain
- 6. Dry eyes

**WHY BLUE LIGHT BLOCKING GLASSES?**

With so many jobs now being computer-oriented, looking after your eyes has never been so important. Staring at a screen for a long period of time can cause blurred vision, eye strain and other ailments known collectively as computer vision syndrome (CVS).

**HOW IT WORKS**

Our computer glasses can block most harmful blue light to help reduce the negative health effects that are caused by long time using of digital devices. Our blue light blockers have lightly tinted lenses and anti-reflective coating to help reduce your eyes' exposure to the digital screen's glare. These specially designed glasses for computer users can help you to see your screen more clearly, reducing squinting and tiredness.

**Product information**

Color: **Brown Gradient**

Department	Womens
