BUY IT NOW

1. **Energy Efficient:** This 14 Watt super bright LED light bulbs provide 1400 lumens of daylight white light, equivalent to 100 watt incandescent with over 85% less energy use, making it an economical alternative to incandescent bulbs.

2. **Great Value:** A21 LED light bulb turn on instantly with flicker-free, natural light that won't degrade over time. No need to wait for warm up the light. And its high color rendering value (80+) meaning colors remain true and natural, always.

3. **Long Life Span:** Each bulb is expected to deliver a lifetime of up to 15,000 hours and over 10 years (based on three hours per day), saving you the cost and hassle of frequent bulb replacement. It is last much longer than incandescent and halogen bulbs. And unlike fluorescent and compact fluorescent bulbs, LEDs are mercury-free so they don't contribute to hazardous waste.

4. **Dimmable:** Seamless dimming capabilities that fit any mood or decor.

5. **Affordable multi-packs** allow you to stock up and replace existing incandescent bulbs for immediate energy savings.
