## Description    Reviews (4)

- **PRESS-TO-CLOSE, TWIST-TO-OPEN (PCTO )**- Hassle-free handling with no spillage; one handed closure (Patent Pending). **PRECAUTIONARY DESIGN:** If the liquid in the bottle is too hot (above 70 deg Celsius), air pressure will force the fluid out from the sides. This works as a precautionary in case the milk is too hot for consumption.
- **MORE NUTRIENTS, LESS AIR-** Air venting bypasses the milk, minimizing air bubbles & oxidation of nutrients. Built-in anti-colic air vent reduces air intake.
- **MIMICS A MOTHERS'S BREAST-** elliptical-shaped silicone teat simulate a latching experience, making breast and bottle feeding combination possible. Off-center teat enables your baby to feed in natural upright position.
- **BPA, BPS, PVC, & PHTHALATES FREE-** created with FDA compliant and NSF certified PPSU that combines advantages of both glass and plastic material; lightweight & odor free; Shatter resistant and Dishwasher safe (top rack only)
- **STACKABLE & EASY TO CLEAN-** "soft-square" design prevents the bottle from rolling away and allows it to be stackable to optimize storage; **REMINDER 5OZ BOTTLES COME WITH SLOW FLOW TEATS; 8OZ BOTTLES COME WITH MEDIUM FLOW TEATS**
