## Thank You

Thank you for taking the Mindset Quotient (tm) Test. Your number score has been sent to your email in a printable certificate.

## Your Basic Analysis:

Your number score was just sent to your email. The following analysis was automatically generated based on your scorable multiple choice answers:

You feel deeply and wish for a better life, but often circumstances beyond your control keep you from enjoying the results you want. You've tried to make changes, but nothing seems to work, at least permanently. It's hard to believe things will ever change. You often feel unlucky, and struggle to get ahead.

You're weary from repeated disappointments and skeptical of anyone who tells you things can improve. Basically, you'll believe it when you see it. Sometimes you feel that people who offer solutions have ulterior motives. While some people may call you a cynic, you call it wisdom. You can relate with the saying, "Fool me once, shame on you. Fool me twice, shame on me." You're determined never to be fooled again.

You're always open to learning more, if there's truly something new to learn, and if it makes logical sense. You trust science and academia more than social media, and you trust empirical proof more than a (probably fabricated) testimonial.
