- Full Refund if you don't receive your order
- Full or Partial Refund, if the item is not as described

- Ergonomic contoured shape to help reduce hand fatigue and chafing.
- Finest dielectric natural rubber, superior dielectric properties, increased durability, flexibility and comfort.
- Test voltage: 12000V; Under 3000V as a basic security appliances and 3000V-8000V as auxiliary security appliances.
- Suitable for electrician lineman work and high-voltage machine operations, etc.
- Length 14.5 inch, Width 4.5 inch (Wrist)/ 6.7 inch (Cuff), fit for most hand size.

Product description

Material: high quality natural rubber
 Weight: 165g each
 Thickness: 1.0mm
 Length: 14.5 inch
 Width: 4.5 inch Wrist, 6.7 inch Cuff
 The dimension is fit for most hand size.

The product is suitable for lineman work, electrical contractor and field service work, high-voltage machine operations, and other industrial applications.

We use only the finest dielectric natural rubber, offering superior dielectric properties, increased durability, flexibility and comfort at the best value. The material is non-conductive and provides better elasticity than nitrile, chloroprene, or vinyl, and better puncture resistance than vinyl.

The glove has a contoured shape to help reduce hand fatigue and chafing, and a smooth finish for comfort and to resist wear.

Test voltage: 12000V, 1 minute, leakage current is less than 1.5 milliampere per kilo volt .
 Under 3000V: as a basic security appliances, -- can touch electrical equipment.
 3000V-8000V: as auxiliary security appliances, -- cannot touch electrical equipment directly.

Tips:

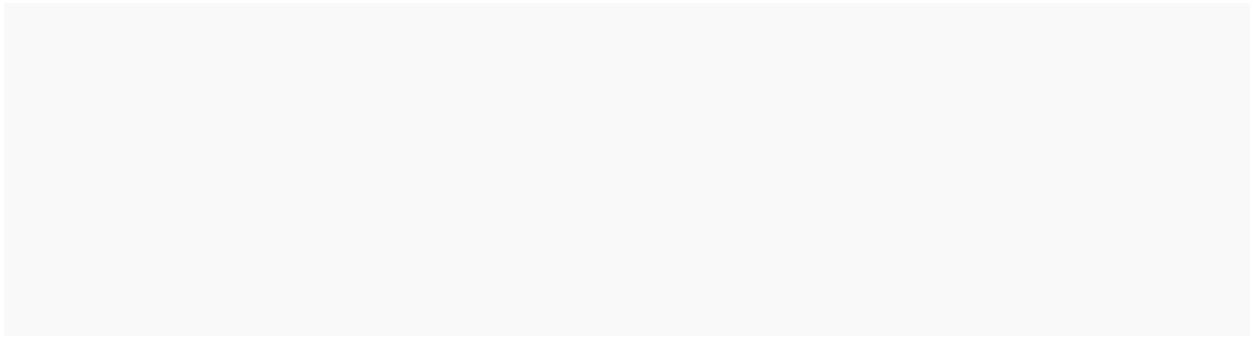

- 1, if the gloves are damaged, please do not use.
- 2, to ensure safety, a preventive test should be performed every 6 months using.
- 3, when using, your sleeve should be put into the glove to prevent accidents.
- 4, when stored, keep away from heat, and avoid direct sunlight.

Package include: 1 pair insulated gloves (Note:Some powder on the gloves for purpose of protection,not dirt.)
