

CONNECTING AND SECURING EFFECTIVE LEARNING ECOSYSTEMS

*Increased interoperability without the inclusion of privacy requirements = increased RISK.
 Both data sharing and privacy parameters must be left identified and communicated.
 The A4L and SDPC Community is the ONLY place to address both!*

 <p>#1 used edtech standard</p> <p>Used in all US states and 4 countries globally...</p>	 <p>Privacy & Interoperability</p> <p>Privacy 'baked in' to all open interoperability</p>	 <p>End User focused Use Cases</p> <p>End User and Developer</p>	 <p>Community uniqueness</p> <p>Providing clear and transparent processes</p>
