Jul 24, 2020, 13:49 ET

SACO, Maine, July 24, 2020 /PRNewswire/ -- PHCO₂, an industry leader in whole plant hemp extraction with almost 40 years of supercritical fluid CO₂ extraction expertise and multiple supercritical CO₂ patents, has launched a new website. PHCO₂ specializes in innovative, proprietary CO₂ remediation and ingredients and is known for its reputation of employing scientific, proven methodology.

The new website is visually engaging, easy to navigate, and allows visitors to quickly access the tolling and ingredient capabilities at PHCO₂ with prominent calls-to-action ("CTAs") available on each page. Visitors receive valuable information regarding PHCO₂ as a company and tolling service provider, and an innovative whole plant hemp extract remediator. Visitors can also learn about the full line of the PHCO₂ branded ingredients, which is the first 100% USDA-certified organic whole plant hemp extract ingredient available for purchase to companies for use in their private label products that require compliant or non-detectable THC levels.

promises of the CBD and all the minor cannabinoids in their purest form. The PHCO₂ team is proud to be one of the only suppliers to contain everything that nature intended in the whole plant hemp extract and are thrilled to have people visit us online and contact us so we can help them with their remediation or ingredient needs." .

For more information, inquire about small-scale sampling, and to visit PHCO₂'s website: www.thephco2.com or call (207) 298-2478.

About PHCO₂

PHCO₂ is an industry leader in whole plant hemp extraction with almost 40 years of expertise with patented supercritical CO₂ extraction. This innovative, proprietary food-grade, state-of-the-art CO₂ extraction process serves conventional and organic growers with whole plant hemp extract remediation. It offers a line PHCO₂ brand 100% USDA-certified organic ingredients—first in the industry—offering broad- and full-spectrum ingredients for companies that require non-detectable or compliant THC remediation. PHCO₂ is certified cGMP, executes to these standards and is known for its reputation of employing scientific, proven methodology for its superior CO₂ extraction and remediation process. PHCO₂ ingredients are grown, processed, and packaged in the U.S.A.
