

## CORPORATE LAW AND LITIGATION

Years of Experience

- **Corporation:**

Understanding the complexity of the clients' intellectual property rights and business assets, we will use our vast experience in intellectual property law and business law to ensure that the clients' business interests and intellectual property rights are protected from the start. We help clients lay the groundwork to minimize future disagreements and disputes by defining the different owners' rights and obligations through clear, written agreements regarding matters such as profit distribution, control and voting rights.

Our team can handle a broad range of domestic and international transactions, including mergers, acquisitions, divestitures, strategic alliances and joint ventures. We can cover all aspects of the investment cycle, from entity selection and formation, to maintenance, governance and ongoing operations, to acquisitions, sales and mergers, through wind-up and dissolution. We routinely assist our clients

Disputes may occur during the life cycle of the clients' business. Litigation may be necessary when parties are unable to resolve the business dispute through negotiation. When a trial is necessary, we bring deep experience to the courtroom. Our team knows how to try a case using themes and language which are understandable and persuasive to juries and judges. Our litigation service includes, but is not limited to, corporate and shareholder litigation, representation of clients in termination and brand assignment litigation, breach of contract disputes and corporation dissolution.

We know that the definition of a successful outcome varies from situation to situation and client to client, and we seek to resolve every matter consistent with our client's business and legal objectives. Where a negotiated settlement is desirable, we work for the most efficient and effective resolution possible. We are well positioned to resolve matters and to prevent litigation on the front end. We can bring equal experience to alternative dispute procedures, mediations, and other structured settlement vehicles.
