DUSK TO DAWN

All Coop Controls kits are automatically set from our factory to open the coop doors at dawn and close at dusk to protect your flock from predators.

ADJUSTABLE DELAYS

Delay adjustment dials allow you to set the opening and/or closing times to independently be up to 60 minutes later than when our system detects sunrise and sunset.

FLEXIBLE DESIGN

Our flexible design allows you to adjust the operation and installation to your needs by allowing automatic or manual operation and control by external devices such as a timer.

ABOUT US

We are a leading designer and manufacturer of innovative solutions for automating outdoor devices around the home including Automatic Coop Door Openers and Automatic Gate Openers.
