- Full or Partial Refund, if the item is not as described

【Increase visibility with anti-glare】 Qlife rear view mirror widens your visibility by seeing everything behind and to the side of you

【Increase view of backseat】 Not only can you see blind spots, you can easily see your passengers on the second row without having to turn around. Isn't it perfect when you want to keep an eye on kids?

【Shake is not a concern】 No shake, wiggle or vibrate while driving. This wide-angle rearview mirror comes with sturdy clamps that firmly grips on your original mirror, not too tight, but just right grip and it won't fall off even on bumpy roads

【Installation is a breeze】 Simply clip it over your factory rear view mirror which needs to be 2.3" -- 3.1" in height, no tools required. Supports universal vehicles, like cars, SUVs, vans and trucks

【High Quality you can count on】 Made of high quality and high definition glass to provide crystal clear visibility. Note: as it's curved, you may get used to the appearance of

vehicles being farther away in the mirror than they actually are
