

WHO WE ARE

PlanWorks is a Licensed Insurance Agency that specializes in helping Medicare-eligible clients compare and select an Advantage Plan that Works for them!

Medicare Parts A & B (Original Medicare) is the default Medicare Plan when you first enroll. By taking the "default" plan, you could be missing out on other benefits, such as free prescription drug coverage, free OTC supplies and reduced monthly insurance costs.

When you call PlanWorks you will work directly with a Licensed Insurance Agent. Each PlanWorks agent has established relationships with Medicare Advantage Plan providers nationwide. We will work with you to understand your financial and medical needs, and will present you with several options. Once you select a plan, we submit your request to the provider and they will issue your plan to you. You can contact your agent at any time and it costs you nothing!

"Contact a PlanWorks Licensed Agent now!"
