About this item

- [SUPER DURABILITY]** 7.4V 2600mAh(+15%) rechargeable high-capacity li-ion battery pack. Compared with EXL's 2 Inch 18500 battery, our capacity is at least 1000mAh more than EXL's battery (support capacity test). Because the maximum capacity of EXL (2 inch) 18500 battery is only 1800mAh, while 18650 can achieve 3500mAh. This is why our batteries are expensive. Compared with NIMH, it can maintain 60% of the capacity for 1000 cycles of charging and extend the cycle life by 50%.
- [QUALITY ASSURANCE]** The 7.4V 2600mAh(+15%) rechargeable li-ion batteries strictly controls the consistency of voltage, internal resistance(20mΩ) and capacity to ensure the super stability and durability of the product, longer discharge time and more cycles.
- [SIZE & CUSTOMIZATION]** Size: 2.68*1.46*0.75 Inch(68*37*19mm). Please Check the battery size and connector type. Any connectors can be customized, if you need, please contact us. Please look for email in the picture(Don't buy custom connectors here).
- [BROAD COMPATIBILITY]** Rechargeable lithium batteries have a wide range of applicability. Compatible with a large number of electronic products, such as instrument batteries, equipment batteries, RC toys, DIY toys, outdoor lighting. Please check voltage and connector type.
- [SALES SERVICE]** Meet Amazon after-sales service. At the same time, enjoy 1 year of after-sales technical consulting services. If you have any questions about using the product, please contact us. Thank you very much.

Great little battery for my projects but needs a few batteries for my projects. I prefer to have more powerful and longer lasting batteries. I highly recommend this company and their batteries.

I bought this to replace a 7.4v battery from a portable bluetooth speaker to fit the same dimensions. This had a larger mAh capacity than the original. Only had the battery for a month and its capacity seems as expected.
