## Winice 3D Printer M08 with Resume Print, Removable Build Surface Plate, Metal Frame FDM DIY Printers 3D 250x250x270mm (Black)

Brand: Winice

4 ratings | 5 answered questions

Price: **\$198.00** & FREE Returns

Returnable within 30 days of receipt

Color: **Black**

- **ALL METAL FRAME:** This all metal frame provides a sturdy base meant to last for years. Plays an important role in the accuracy of 3D printing. It makes Winice 3D printer more stable and high-precision.
- **RESUME PRINTING FUNCTION:** Winice 3D printer can automatically memorize the printing progress and resume printing after power outage or any other unexpected stoppage. The function of intelligent alarm for material shortage avoids time and resource waste.
- **FAST HEATING:** Only needs 5 minutes for hot bed to reach operating temperature. Shortening the heating time, meeting the needs of fast printing.
- **LARGE PRINTING SIZE:** Support print size 250 x 250 x 270mm, the same price, larger print size to meet your more printing needs and enjoy more printing fun.
- **MAGNETIC HOT BED STICK:** Provide all-round protection to your 3D printer build plate and ensure consistent

## Product description

Color: **Black**

Model: M08

Material: Metal

Color: As Picture

Plug Type: US

Size: 520 x 393 x 487mm/20.5 x 15.5 x 19.2inch

Print Size: 250 x 250 x 270mm

Nozzle Diameter: 0.4mm

Machine input power: AC220-1.3A/AC110-2.6A

Machine output power: DC24V-10A

Insulation withstand voltage: 500Vac/10mA/1min

Insulation resistance: DC500V (10MΩMIN)

Online applicable software: Cura, etc.

Weight: 6.9kg

Environmental humidity: ≤80% Ambient temperature: -30-38°C Voltage fluctuation: AC220V±10% AC110V±10%

Features:

Complex construction injection molding. High printing precision, good result and easy reloading filament.

Printing speed: 70mm/s is usually used. If it is too fast, the surface of the model may be rough or deformed due to heat dissipation and vibration, such as 200mm/s.

High-precision: Get creative with high-precision 3D printers. Power supply safety protection: undervoltage protection, short circuit protection, overcurrent protection, leakage protection.

Environmental requirements: Air requirements: harmful, flammable, and explosive gases are not allowed in the use environment, and the maximum PM10 is 0.15ug/M<sup>3</sup> (exceeding may affect the service life of the fan)

Package Content: 1 x 3D Printer

**Before you buy an Ender 3, give the M08 an honest look**

Reviewed in the United States on September 6, 2020

possibilities. The M08 is, in my opinion, a real alternative/competition to Creality's Ender 3. Not only do you get a similarly built printer, with the same style hotend, extruder, and frame. However, the M08 brings a little more to the table out of the box. For starters, there are only the Z extrusions and X Extrusion to put onto the printer.

**Great Performance And Quality 3D Printer For The Price**

Reviewed in the United States on September 7, 2020

Color: Black **Verified Purchase**

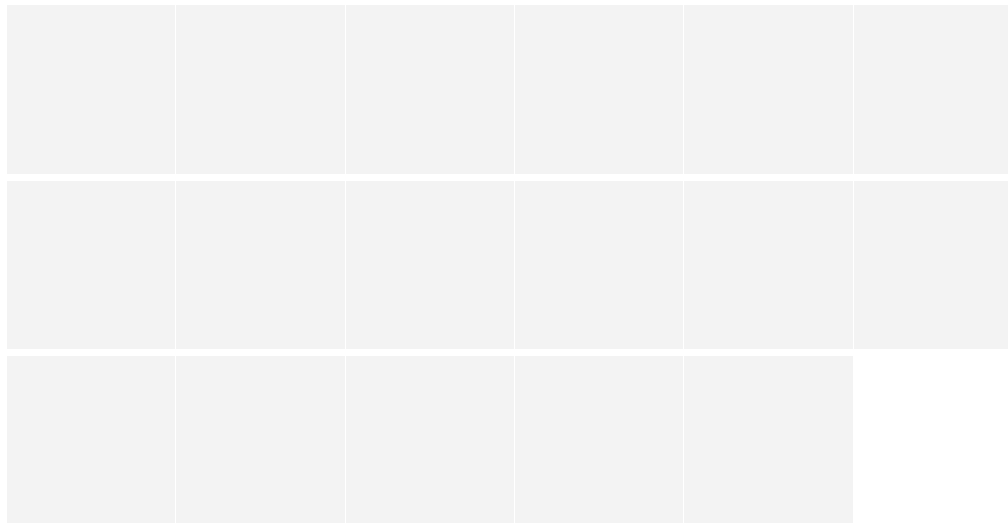

Overall, I am very satisfied with this printer for something under the \$200 price range. Having a touch screen interface, high quality bed springs, easy bed leveling, and great functionality, I would buy this printer again if I wanted another well-functioning and cheap printer. I was able to have it assembled in under an hour. I really like the built-in leveling function which makes the start up procedure for prints simpler. Also, the plots of temperature for the heat bed and nozzle is a nifty little addition to the user interface.

My test prints came out wonderfully. The small crab like robot was printed with .24 mm layers, the dog with .08mm layers, and the windmill with .16mm layers (and the fan blades are only .4mm thick). They all came out wonderfully and the supports on the crab and dog worked great and did not damage the prints when removed. Adhesion to the build plate was great as well for all the prints.

If you have assembled a printer before, this will be easy, if not, the pictures in the manual will help

**This printer is just awesome!**

Reviewed in the United States on July 13, 2020

Color: Black

Took me around an hour to assemble using a YouTube tutorial and its instructions manual. You would need to make sure the bed level is fine each time you start printing with this. Print quality is good.

**Highly recommend**

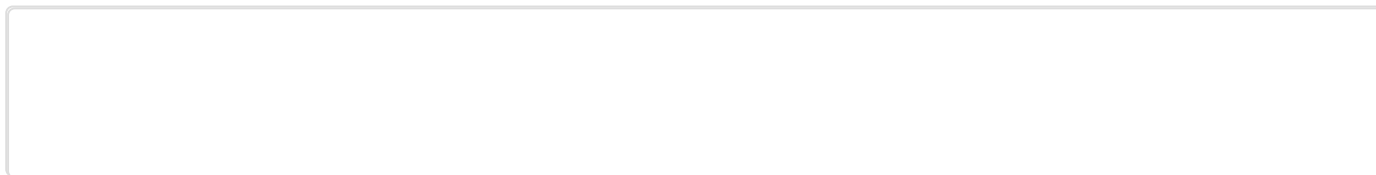

Reviewed in the United States on July 13, 2020

Color: Black

If you are considering the purchase of 3D printer, I would highly recommend this one. Easy for beginners, prints with PLA much easier than ABS. There is a 3.5" touch screen.I am a complete novice for 3D printing, and still had this on up and printing in well under and hour.
