position and save print data. Lower the platform and withdraw filament when power off suddenly. It will continue to print from the last stopped point after power's on. The printer will avoid invalid printing by stopping print and warning when filament runs out.

- 3D PRINTER GLASS BED:** Winice M09 3D printer glass bed is arguably the best option when aiming for a flawless print bottom. Not only that, it's also remarkably easy to remove prints from glass (providing your bed was clean before the print). In fact, within the 3D printing community, the joke goes that just knocking on the printer is enough to make it slide.
- DOUBLE Z-AXIS:** Unlike the Z-axis single screw on the market, Winice M09 3D printer uses a Z-axis double screw, dual motor + double screw + double Z axis limit switch to ensure the stability and flatness of the printing platform.

Product description

Color: **blackred**

Model: M09
Material: Metal
Color: As Picture
Plug Type: US
Size: 520 x 393 x 487mm/20.5 x 15.5 x 19.2inch Print Size: 260 x 260 x 270mm
Nozzle Diameter: 0.4mm
Machine input power: AC220-1.3A/AC110-2.6A
Machine output power: DC24V-10A
Insulation withstand voltage: 500Vac/10mA/1min
Insulation resistance: DC500V (10MΩMIN)
Online applicable software: Cura, etc.
Weight: 7.9kg
Environmental humidity: ≤80%
Ambient temperature: -30-38°C
Voltage fluctuation: AC220V±10% AC110V±10%
Features:
Complex construction injection molding.
High printing precision, good result and easy reloading filament. Printing speed: 70mm/s is usually used. If it is too fast, the surface of the model may be rough or deformed due to heat dissipation and vibration, such as 200mm/s.
High-precision: Get creative with high-precision 3D printers. Power supply safety protection: undervoltage protection, short circuit protection, overcurrent protection, leakage protection.
Environmental requirements: Air requirements: harmful, flammable, and explosive gases are not allowed in the use environment, and the maximum PM10 is 0.15ug/M³ (exceeding may affect the service life of the fan)
Package Content: 1 x 3D Printer

Great printer for the price!!!

Reviewed in the United States on August 18, 2020

Color: blackred **Verified Purchase**

Overall great 3-d printer for the price. Shipping was super fast I got it in two days. Took a little bit to set up bring a newbie to 3-d printing but once I did it was surprisingly easy to use.

Klingler LLC **TOP 1000 REVIEWER**

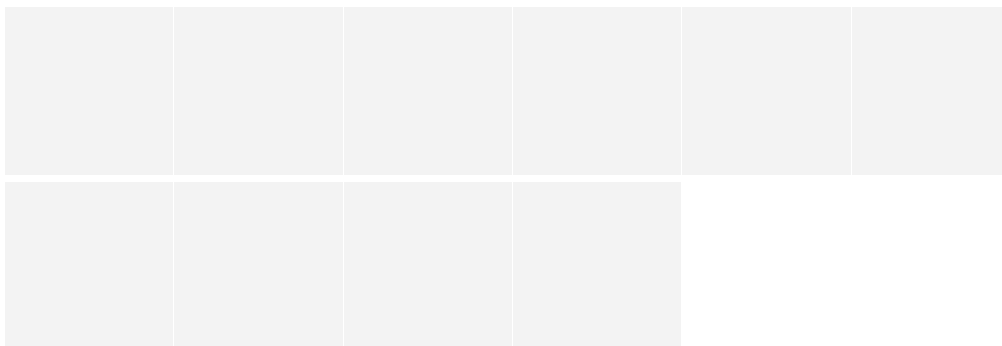

Awesome printer that is easy to use and works well

Reviewed in the United States on August 24, 2020

Color: blackred **Verified Purchase**

What an awesome printer. You do have to set it up and that takes some time but the instructions are clear and even have clear pictures to follow. I am new to 3D printing but have a lot of Technical and Electronics background. I found that there are a few things that needed to be taking care of to ensure this machine works perfectly that are not listed in the manual. The platten has a coating on it and there is a glass that can go on it where one side of the glass

 ChampStamp**Highly Recommend You STAY AWAY From This Printer...**

Reviewed in the United States on August 24, 2020

Color: blackred **Verified Purchase**

This is not worth the price tag. It isn't many parts to assemble, but the poor instructions made the assembly take over 2 hours. That's longer than it took me to assemble the Ender 3 V2, which came in more pieces. This is loud as heck and seems like its at least 3 or more years old based off of the UI. It took me a while to get it to even read my g-code. The print I got was abysmal. I tried to use similar settings to what I use on my Ender 3 V2 and this thing was not happy. Maybe it was just their sample filament, but the print looked real bad. I had to stop it early on because it looked so bad. The only thing that was good about this printer was the build materials. Pretty much the entire thing was metal. This is not a good printer for anyone, and especially not for beginners in the 3D printer space. I highly recommend the Ender 3 V2 or Artillery Genius over this. They cost a little more but are much more streamlined.

Patrick H **TOP 500 REVIEWER****Tons of fun creating stuff**

Reviewed in the United States on August 24, 2020

Color: blackred **Verified Purchase**

The kids have been asking for one of these for eons but I just never saw the need. I finally gave in when I came across what seemed like a great deal, and I'm glad I took the plunge. It came partially assembled, which was a help. The rest took me just under an hour. I like that this is all metal, especially the rods (no cheap plastic here). There's a learning curve for sure since this is new to us, but we've already tried a few different materials and have made a few cool items! The kids will probably get more use out of this than I will, but it was well worth the price. Works great and is fun to see the results.

Works well, Be ready to build it

Reviewed in the United States on August 31, 2020

Color: blackred **Verified Purchase** **Early Reviewer Rewards** ([What's this?](#))

It took me some time to get this build and really set up with the parameters. The instructions are not 100% inclusive and don't cover everything but if you have used a 3D printer before, you can figure it out. It did take me a while to put it together. Build quality is pretty good for the price point. The PLA that came with it is not great, but I had some better stuff I had lying around from work. It does print well and the interface is somewhat easy to figure out. I used Ultimaker to set up everything and it worked easy to print. Overall, worth the price and a good buy.

Gman **TOP 500 REVIEWER**

Off and printing in one hour.

Reviewed in the United States on September 1, 2020

Color: blackred **Verified Purchase** **Early Reviewer Rewards** ([What's this?](#))

Had it assembled and printing within an hour. Instructions are detailed with pictures. If this is your first printer some of the terminology might be confusing because the instructions refer to parts in technical terms. Just use the pics.

Screw and bolts were easily identified in labeled packages.

Touchscreen is a nice feature.

Jackie

Bad quality

Reviewed in the United States on August 22, 2020

Color: blackred **Verified Purchase**

It took me long time to setup this printer and after all that hassle it stops while printing and throws filament at one place unless stopped. Software wise I did nothing wrong since I have a lot of experience in that. Printer tries to run I can see but it is getting stuck for reason. I am very disappointed after spending so much on this.

Mr R.

Oh, you want it to print ? Sorry just decoration

Reviewed in the United States on September 8, 2020

Color: blackred **Verified Purchase**

Couldn't get it to feed media to printer head, would constantly go backwards. Support was non existent. Great value if you looking for a desk piece that doesn't do anything.
