This thing cuts pizza like a crazy looking knife thing that's designed to cut pizza. Just incredible, must have...life hack type stuff. After two full pie's I've had no slippage, uneven cuts or board scratchage. Highly recommended

Description

Description

Iconic Handle Design

Universally recognizable, the bored holes in the face of each M16 handle sets it apart from other knives in the industry. The shapely ergonomic design makes for a bomber grip amid rain, grit, and grime.

Carson Flipper Opening

True to its tactical nature, the Carson Flipper balances performance and safety. Light pressure rapidly deploys the blade. Once open, the flipper becomes a blade guard to protect digits in hard-use situations.

Automated Liner Safety

When open, this next-level safety innovation sets a pin between the liner and the frame to keep it super secure while it's in use. Closing is just as simple—move the red pin aside and push back the liner as usual.

Love the design. Just opened another beer with it. The knife is nice and compact. And the bottle opener is why I ordered it. Also, has a glass breaker point on the handle end. Got another one like it except with a plastic handle. This one is a bit heavier but the metal handle makes it feel sturdier. Would highly recommend this item if you like beer and like having a multifunctional compact blade. Love this thing!
