FREIGHTWISE

Transportation Cost Management

FreightWise's Transportation Cost Management is a freight rate management system in which we leverage our collective freight spend to secure deeply discounted rates for our clients.

shipping.

- Offloading non revenue generating manual tasks such as receiving, auditing, correcting, paying consolidating freight invoices, saving you time and money.

- FreightWise's proprietary Transportation Cost Management solution provides you with full visibility into your transportation environment, empowering you to make proactive decisions. Granular visibility into your supply chain is paramount in freight cost management as it allows you to identify waste, gaps and inefficiencies.
