★★★★★☆☆

Nice, sturdy board

We have used our SUP a few times now and it is a lot of fun. It is nice and sturdy and holds weight well. However, be aware ***the fins DO NOT FLOAT*** (ours fell in the lake and sank!)

Great Board for the value

We just Purchased 2 Nautical 10.6 boards and the order (During Covid19) arrived promptly with all pieces enclosed and with no issues They inflate firm and secure...however if you go hand pump only, prepare for a workout. Haven't put them on the water yet, but we suspect with the firm inflation , three fins and slight curved design , they should be...Read More

Amazing and worth it!

Took this out with other, more expensive iRocker boards and couldn't tell the difference! My husband and I were both on it with a total weight of 320 pounds and it glides just fine. Really enjoying this board. Easy to manage and inflate/deflate. Highly recommend it!!!

Perfect for summer adventures

I purchased two Nautical by iRocker SUPs and I could not be happier. I've been using them every weekend since they arrived in early June. The ease of use is perfect for a SUP beginner like me. The quality is really great. The boards have proved to be durable in several outdoor adventures.

I would absolutely recommend getting an electric ...Read More

★★★★★

great board and experience

I love my paddleboard! It doesn't have a lot of stability but it's good for practice. The construction is great and beautiful. This is my first time on the board and I enjoy it. Already been 8 times since I have bought it, definitely not just yet another thing to be stored and never touched.
