

5

STEPS TO DISCOVER YOUR IDEAL STUDENT EXPERIENCE.

We share your passion in building a healthy community within your campus recreation center, and we understand how challenging it can be to serve your students, engage your staff and stay on top of your day-to-day tasks.

Here are five steps you should take to discover how to create your facility's ideal student experience:

- 1** *Define your student or alumni member.*
- 2** *Ask, what outcomes is your member trying to achieve when coming to the facility?*
- 3** *Explore how these goals are being (or not being) achieved for your member.*
- 4** *Implement change in the recreation to better suit the goals of the member.*
- 5** *Get member feedback on the recreation and how they are feeling about the changes that have or will be made.*

Speak with our team to learn how we can help you provide the ideal student experience at your campus recreation facility.
