Product description

Features

Uses ultrasonic technology to stop barks - More effective and durable. No more barking.
 Sensitive microphone for outdoor(waterproof) use. Can also be used indoors, recommended level for indoor use is level 1
 Four adjustable ultrasonic volume levels - test, low, medium, and high, with LED battery power level indicator.
 The product will not work on deaf or hearing impaired dogs. There are some situations where dogs become desensitized. To avoid this, only turn the outdoor bark control on during periods of unwanted barking.
 The device uses low-intensity ultrasonic, is silent to humans and not harmful. Safe for small, medium, large dogs

How The Outdoor Bark Control Works

When the outdoor bark control is within range of a barking dog, an internal microphone pick up the sound and the unit is automatically activated. The outdoor bark control emits an ultrasonic sound. the ultrasonic sound can be heard by dogs but is silent to humans. Startled by the high-pitched sound that is safe and effective,the dog should stop barking, it will associate its bark with this unpleasant noise. When the dog stops barking the ultrasonic sound also stops. The outdoor bark control has 3 range levels and a test mode.It is effective up to 50 feet.

Possible use for the Outdoor bark control

- Stop your barking dog
- Stop your neighbors' barking dog
- Train puppies not to bark
- Deter barking dogs on camping trips

Package Includes

New Outdoor Bark Control and manual

Note

Keep at arms length away from the human ears to avoid hearing damage. if a dog begins barking while you are setting up,mounting or hanging the Outdoor Bark Control.**if the dog is deaf or hearing impaired,he may not react to Outdoor Bark Control.You can contact us and we will give you a free refund. A 9-volt battery required (battery not included)**

★★★★★ I wish I would of gotten this sooner!! (>_<) ♥
Reviewed in the United States on May 11, 2020
Verified Purchase

My two Chihuahuas would constantly go crazy and bark all the time and it was always especially embarrassing when I am walking up the stairs on my way to my apartment and can hear my dogs barking so loudly on the way up the whole time and I would even say they're names "Gizmo! Benji!" before i even got to my apartment out of frustration, lol.

I've read mixed reviews on these ultrasonic devices and wasn't 100% sure if these would work, but OMG... I only wish now I would of gotten these so much sooner!
Size wise, They are on the really "cute" small/tiny side. I have it standing on this mirror thing right by my front door.

My dogs bark 90-95% less now. Benji doesn't bark at all anymore, but Gizmo will sometimes try to act tough and Yap out one bark or two before running back in towards my apartment.

It's actually freakin amazing because of ANYONE would come into my place, they ALWAYS barked, but

★★★★☆ Neighbor's barking dogs appear to take notice...

Reviewed in the United States on May 18, 2020

Verified Purchase

Neighbor has five little dogs. Two or three of them bark continuously when we are in our own yard. This also causes the neighbors to then just yell at the dogs to stop, but it does nothing to actually help. They are also small so they can slip right through the fence (not sure this thing will help with that! LOL.)

They are good neighbors, not the type to hangout with, but they have a nice yard and are courteous for the most part. But the dogs barking (and neighbors yelling at them) drive me nuts. So I installed this on a tree facing the neighbors yard. Seems to be getting the attention of the barking dogs. Hope it eventually stops the incestuous barking and neighbors yelling at them... I will come back and give it a 5 stars if that happens!

★★★★★ Now with no barking!!!

Reviewed in the United States on May 26, 2020

Verified Purchase

Works great!! I have used other ultrasonics in the past with varied results, worked on some dogs but not others? We have a dog that survived eating some rat poison a few years ago, and it doesn't really bark, it more screams. It was truly driving us crazy, this immediately calmed our dog down and our nerves too. I was concerned when i bought this as i have two large dogs and this nervous dog, this nervous dog being the biggest barking offender, but honestly when all three are excited and barking it is pure chaos!! This WORKED!! I have used in inside as well as outside, it works outside when its inside! Very happy with this purchase!!

★★★★★ Working

Reviewed in the United States on May 22, 2020

Verified Purchase

This is amazing and I am truly grateful. I am using mine through a wooden fence, with some gaps where the sound gets through. It's at the dogs head height on a table pointing at his yard. Keeps working better and better it seems. This is day three and the dog keeps getting quieter, and when he barks is quieter and shorter and fewer attempts at barking. Thank you!!!

★★★★★ Effective right out of the box...

Reviewed in the United States on May 5, 2020

Verified Purchase

I wasn't sure what to expect with this device, but my dogs have only barked a couple of times since it arrived last night. When they have started, they stop almost immediately. I'm impressed, so far! If this keeps them from freaking out when the neighbors are in their backyard, it will have been well worth the money and I'm already considering getting another one to keep inside the house or in the garage.

★★★★★ It runs on one, nine volt battery and really works!!!

Reviewed in the United States on June 18, 2020

Verified Purchase

We have five...yes FIVE dogs and sometimes when one of them gets wound up, they ALL get going and it can be LOUD!!! We got this to try out and I have to report we are 100% satisfied!!! This device emits an ultrasonic sound that quiets them when they start excessively barking. It's compact so you can basically put it anywhere inside or out! The microphone isolates and picks up barking up to fifty feet away! It has various levels that you can "turn it up" if the barking continues! It runs on one, nine volt battery and really works!!!

☆☆☆☆☆ Totally Ineffective

Reviewed in the United States on June 11, 2020

Verified Purchase

So disappointed! I received the anti bark device this afternoon and immediately read the instructions, tested it - it responded exactly as the instructions said it should - and then placed it outside to stop my neighbor's dog from constantly barking. I followed the directions by placing it no more than 5 ft high and as close to the dog as possible. In my case, that was on the wood fence separating our properties. I made sure to orient it so that the sound sensor was situated between a gap in the fence, fully unobstructed. Long story short, I'm listening to the dog bark it's head off as I'm typing this, with absolutely no sign of stopping. The dog is "maybe" 6 feet away from the device, well within it's supposed range, but it isn't doing squat. I even went out and checked to see if the device was reacting to the barking, which it is - the red light on the front lit up every time the dog began to bark - but it's still having no effect. Don't waste your time or money on this thing - look elsewhere.

★★★★★ Great for bark control!

Reviewed in the United States on April 19, 2020

Verified Purchase

I have 4 dogs and one especially is a very incessant barker. I didn't think something this small would actually work in controlling their barking but I was pleasantly surprised! The battery lasts a long time and this device actually works!

Michael MacDonald

Too sensitive
Reviewed in Canada on August 2, 2020
Verified Purchase

I don't doubt that this works for barking. However, the device is much too sensitive and actually caused our older dog to get distressed. He was spooked and unsettled. I couldn't figure out why. He only looks like that during fireworks. I realized that the entire time I was outside mowing the lawn with a ride on mower (device was inside on the dining room table) the machine was picking up the noise of the mower and triggering. I only realized it as I finished. I did have the setting on 3 at the time, but even on lower settings I notice that any time I jiggle the table, knock the machine etc, it triggers. This doesn't provide reliable feedback/anti-bark training for my pets. It's possible that our guy was especially nervous because he is trained on an electric fence (with buzz only, no shock) and thought that the frequency of the noise was the same feedback as his fence training (I can't hear it, so unsure). Will be returning device. It was worth a try, but not for us to continue to use!

Kerry

Disappointed
Reviewed in Canada on July 30, 2020
Verified Purchase

Very compact, however I have two Chorkies and no matter what setting I put the device on, their tail is between their legs and then run and hide on another floor of the house. I bought this item to deter barking, not have them scared, trembling and hiding every time they see it. Disappointed for the \$95 it cost me!
