★★★★★ It actually works!

I live in an apartment building and have several dogs that live on the ground floor. When they go out for a walk they bark all the way downstairs. It's so loud and late at night, disrupts my conference calls during the day, and wakes up the neighbors. I bought these and hid it in my door wreath. First day as soon as they barked they stopped! It's given me back my sanity.

This is a good tool for eliminating bad behavior. I have fairly discourage bad behavior. I usually don't have her on a leash. about to roll in a bog or otherwise do something I don't want might have to repeat it a second time, but that's it. I also use the dogs food. The first two times I caught them moving toward running. They've never gone back to her food but still drink carefully and you should get the same great results. Seems w

Bought this for my neighbors 3 yappy chihuahuas. Since I'm able to sit in my backyard without these 3 jumping and screaming kids through the chain linked fence. I set this on the table near through their doggy door, thus giving me and my small kids

★★★★★ Great Training Device for my Dog

Reviewed in the United States on July 14, 2020

I got this device and was anxious to use it for a number of issues. My dog barker but does go nuts whenever anyone comes to the door, who comes through the door. It was so bad I had to put her in allowing her out. Since I got this, I've used it for the jumping jumps on anyone which is great news for my daughter who'd grandkids over because she knocks them down when she jumps tomorrow to see how she does, and I'll be right there with the to jumping. This device is also helping with her play biting which stops when she hears it but within a few minutes, she's doing little longer to get this rescued girl to mind her manners. Works

★★★★★ Best anti-bark device!

Reviewed in the United States on July 16, 2020

This device works well for my dog. She's a little dog and uses aggressive mind you, but an obtrusive behavior nonetheless. Try it on yourself close up first so that you can experience the pet than is necessary as it is a truly uncomfortable sound. A reminder that wind will effect the volume and effectiveness. I use great for when the device is not with you. Be consistent and stop dog when she stops barking. It works well and you are not causing break your dogs spirit and instill fear, not obedience. I have tried things and this device has been the best ticket. She is a three works on 'yappy' dogs.

★★★★☆ Good device, but didn't work for my dog

Reviewed in the United States on July 3, 2020

Color: Brown [Verified Purchase](#)

The product works as described. Easy to set up. However, it's setting.

Pros:

- 1. Small
- 2. Light indicators: green for working for battery life and to your dog reacts.

Cons:

- 1. It reacts to other sounds that should not set it off. I had it when I was in the kitchen closing cabinets and I would make reason

I would say it is something worth trying since its not harmful
