- EASY TO USE AND MESS-FREE one-handed hydration system is simple to use: just squeeze the bottle and the specially designed valve delivers water to the bowl. Release your squeeze, and the water returns to the virtually leak-free bottle.
DESIGNED FOR CONVENIENCE -The 20 ounce bottle easily fits into any standard car cup holder.
FILL WITH FRESH WATER FROM A TRUSTED SOURCE -Having fresh, clean water for your dog can help prevent health issues related to drinking from public water bowls and puddles which can contain disease-bearing bacteria, parasites or unknown toxins.
Friendly Reminder: Please confirm the cleanliness and hygiene of drinking water before filling the water to avoid the damage caused by drinking unclean water for your pet's health.

★★★★☆ **Leaked when you squeeze**

Reviewed in the United States on July 21, 2020

Color: PINK | **Verified Purchase**

When I squeezed it it leaked like it needs a gasket around the lip. Also, the water doesn't go back down in the bottle when they are done drinking which leads to wasted water. When on a trail and no water source, wasted water is not good.

★★★★☆ **Does not flow back into bottle!**

The whole reason I bought this bottle was for car travel and when my dog doesn't drink all the water I squeezed into the bowl it would flow back into the bottle, but it doesn't do that! False advertising!! So I will have to remove top and pour it back in so I don't have to just dump it on the floor of the car! The only reason I bought it was because it says water goes back into bottle if dog doesn't drink it all! So I should have just continued to use my old one! Waste of money!

I purchased two different types of water bottles. I do not like this one as much as the other. I will say I have seen my grandkids use it sometimes!

I find the bottle very hard for me to squeeze to get the water into the bowl, but I do have some arthritis in my hands. Otherwise, it is wonderful to have especially during long walks in hot weather. I believe it was supposed to come with a strap. It did not.

It's not made very well. When you push on the bottom for the water to come up sometimes it leaks out.

★★★★☆ **Would not recommend**

It was easy for our Pup to drink from but the top doesn't tighten. You can't store in a back pack for fear the top will come off. Which ours did twice spilling water everywhere. I thought maybe i didn't tighten it enough so i tried again. It tightens to a certain point and then pops off.

☆☆☆☆☆ **The bottle is problematic on hikes**

Reviewed in the United States on June 19, 2020

Color: PINK | **Verified Purchase**

We like the water bottle and cup but it kept on leaking . The bottom portion would always come unscrewed while we have it attached to our belt loop when hiking
