#### About this item

- **Intelligent Identification Chip:** The microprocessor intelligently detects the dog barking technology, which can safely and effectively filter other unrelated sounds and prevent false triggering.
- The receiver is designed with a digital display to show the level, and red light for "beep + vibration + shock" mode, green light for "beep + vibration" mode, each mode has 1-7 adjustable intensity levels.
- **New Smart Test Mode:** When the sensitivity level is adjusted to 0, the receiver enters the test mode, and you can test by blowing or shouting at the sensor microphone on the back of the receiver. When the receiver makes a sound, and then vibrations and finally shock (Test light will be on), it means the receiver works fine.
- **Intelligent Dual-Mode and Automatic Protection System:** The dual training mode is beep+vibration, and beep+vibration+shock. In Non-Shock mode, as long as dog barking is detected, it will trigger; In Shock mode, if dog barking continues, the device will perform six different steps in turn, sleep for two minutes after the completion of six steps, and return to the initial state to protect the pet. In Automatic Protection mode, press any button to allow the product to re-enter work mode.
- **Rechargeable & Waterproof:** The collar contains a built-in USB rechargeable battery. It can be fully charged in about 2-3 hours and gave you 10-15 days of use. IP67 waterproof level design and suit for dog swimming in summer and shower. The waterproof charging interface is designed more durable.

Great Choice!

As much as I hated to get a shock collar, I had to find a way to keep my dog quiet while I'm gone. (I was getting noise complaints in my apartment complex) I first tried this with no shock, which didn't seem to change anything, but there are 7 shock levels and I set it to the lowest setting (#1) and that immediately fixed the problem. One of my roommates tested it on herself to see how much shock it was buy it wasn't bad at all. I've had a couple other friends in the same situation buy this and they all have the same results. I can even put the collar on him without even turning it on now and it even fixes the barking because he's learned what happens with it on.

Easy to use bark collar. My Boston Terrier barks at everyone walking by the house. We live on a busy street and the barking was driving me and my neighbors nuts. It seems to be working!

Arrived fully charged. Simple, easy to read directions. My daughter's poodle was wearing it 15 minutes after the mailman delivered it. Wish I had bought it long ago.

Worth the money!

As much as I didn't want to get a shock collar for my dog this works great! He likes to bark and antagonize our bigger dog. As soon as we put this on him he is immediately tame and doesn't bark. It took him one day use to learn how to use it! Set up and instructions are easy and helpful!

★★★★★ **Easy to use and works out of the box**

Reviewed in the United States on October 21, 2019

Seemed to stop barking immediately! I had to adjust the sensitivity a little lower so the device didnt pick up ambient noise or excited play. My dog has been outside in the rain a few times with this on and is still working. The usb charger has a rubber plug so the device is water tight. Easy to use buttons and just make sure it is on otherwise it wont do anything!
