I bought two of these since I have two dogs. They're both barkers. One of them starts and sets the other one off, and they can go on for minutes at a time. I'm tired of being startled half to death whenever the doorbell rings, so I got these collars. They worked great at first. They have 3 settings on the little screen. Vibrate, shock, and sensitivity. All settings range from 1 (lightest vibrate/shock, least sensitive) to 7 (strongest vibrate/shock, most sensitive). These settings work well for both my dogs:

Vibrate - 3 to 5
Shock - 0
Sensitivity - 7

Unfortunately one of the collars' vibrate function has stopped working hence the two stars. What good is this product if the only disciplinary function I use stops working? I could use the shock function but why punish my poor dog some more when the vibrate (significantly less painful) worked for him before?

Overall this isn't a bad bark collar. My biggest complaint is that it doesn't really have a warning system. It does one high pitched beep, then vibrates, then shocks every single time. I have owned other collars in the past. They are supposed to beep as a warning then if the dog continues to bark, then it should vibrate as a warning, and lastly if the dog continues to bark then it should shock. This collar take one woof and sets off the succession of events regardless that the dog stopped at one bark. I bought two of these collars in different colors and they both behave the same way. I do like that the collar can adjust to just beep, vibrate, or shock independently or together and at different levels. It is also a very durable device because my daughter accidentally left it in the crate with the dogs while i was at work and also my male chewed on it all day it was not destroyed and still functions.

★★★★★ **Rechargeable collar is GREAT!!**

Reviewed in the United States on April 1, 2020

We use this collar on our dog when we go out for walks, he is ALWAYS barking at other dogs and people we come across. First time out, we had the collar set for beeping only. Literally the beeping keeps him quiet! We don't need to use the vibrate or shock features. We tested out the shock and it truly feels like a little pinch on the lowest setting, so it's something we both felt comfortable using if needed. The vibration is similar to a cell phone vibration. The main reason I purchased this collar is because it is rechargeable so I don't need to worry about batteries dying and replacing them. The second reason is because it is humane. I am a very satisfied customer. Thank you!

This works exactly as described. My dog is a border collie mix and wears it comfortably. The tone emits after about 3 barks and i have noticed a significant decrease in her barking. She will still growl when people come to the door but does not bark at them.

I use the bark and vibrate features. I am very pleased with this product.

★★★★☆ **Works Intermittently**

I purchased 2 collars and tested them on both of my dogs, one is 45lbs and the other is 55lbs. The collars on both dogs did not reliably detect barking, even when set on the highest sensitivity level, and they worked sporadically. The vibrate function was useless, level 1 shock did nothing, level 2 shock made my dog yelp loudly and frightened her so badly that I regretted trying such a product.

I like the size and also the fact that you can set these collars to sound and vibrate without the shock. I used the shock and after he got shocked a few times I was able to turn the shock off and the sound and vibrate function was sufficient to deter his barking. The only complaint is that my husband was using a hammer and the loud noise set the collar off.

★★★★☆ **Great idea, poor execution**

Reviewed in the United States on May 15, 2020

My husband and I purchased this to help reduce our dogs howling through its vibration setting only. After working through all the sensitivity settings and vibration levels, we gave up.

Our 80LB lab didn't react at all to the device at any sensitivity or vibration level. Our 1yr heeler only reacted to the device when it went off when he yawned, which is obviously not what we intended the collar

for.

We never used the shocking feature, so we are unsure how well that works.

The idea behind the device is great, but the execution seems to be lacking.

★★★★★ This thing does the trick!

Reviewed in the United States on April 7, 2020

Our dog has not responded to any training when it comes to his consistent barking. We bought this collar out of desperation and needing to keep him quiet when the baby is sleeping. After one days use, he has stopped the barking at the front door every time a car drives by.
