About this item

- **Intelligent Identification Chip:** The microprocessor intelligently detects the dog barking technology, which can safely and effectively filter other unrelated sounds and prevent false triggering.
- **The receiver is designed with a digital display to show the level, and red light for "beep + vibration + shock" mode, green light for "beep + vibration" mode, each mode has 1-7 adjustable intensity levels.**
- **New Smart Test Mode:** When the sensitivity level is adjusted to 0, the receiver enters the test mode, and you can test by blowing or shouting at the sensor microphone on the back of the receiver. When the receiver makes a sound, and then vibrations and finally shock (Test light will be on), it means the receiver works fine.
- **Intelligent Dual-Mode and Automatic Protection System:** The dual training mode is beep+vibration, and beep+vibration+shock. In Non-Shock mode, as long as dog barking is detected, it will trigger; In Shock mode, if dog barking continues, the device will perform six different steps in turn, sleep for two minutes after the completion of six steps, and return to the initial state to protect the pet. In Automatic Protection mode, press any button to allow the product to re-enter work mode.
- **Rechargeable & Waterproof:** The collar contains a built-in USB rechargeable battery. It can be fully charged in about 2-3 hours and gave you 10-15 days of use. IP67 waterproof level design and suit for dog swimming in summer and shower. The waterproof charging interface is designed more durable.

Product description

FEATURE:

- Digital display -- The digital tube shows the gears of vibration ,shock and sensitivity.
Adjustable mode -- 1-7 level adjustable sensitivity, 0-7 gears of the vibration/shock, you can choose according to the instructions or the actual needs of your pet.
Automatic protection -- an automatic protection mode to deactivate the collar if activated 7 times in 1 minute then back to work in one minutes.
Adjustable Reflective Strip -- That allows you to keep an eye on your pet even in low visibility and also can protects your pet life from cars etc.

Testing

- 1.Turn on the power.
2.Set the sensitivity to 5-7grade and the shock greater than 0 grade.
3.Wear the tester on the conductive silicone prongs behind collar.
4.Please send a short voice like "wow" (as short as possible) to sensors.Since the frequency of human voice is different from that of pet,please test more time.

Specifications:

Item Size: 2.6 X 1.5 X 1 inches
Item weight: 70g
Package weight: 120g
Collar Perimeter Size: 7.4-23.5inches

Package Includes:

- 1 x No bark receiver
1 x Adjustable Nylon Collar
1 x Test Light
1 x USB Link
1 x Instruction

NOTE:

- 1, Charge it before first use (adapter less than 1A).
2, If you need to adjust the strap and cut the redundant part of it, heat the end of the strap with a lighter, in case it get a raw edge.
3, Don't wear it exceeding 10 hours a day, or it may affect the dog's skin.
4, Don't let the dog alone at first several times.
5, Check the tightness of the strap and your pet skin regularly.The prongs must be against your pet skin to work,you just can fit one fingers snuggle between the neck and collar.
6, Please take off your iron collar,before you put the bark collar

★★★★★ No more separation anxiety barking

Reviewed in the United States on July 31, 2020

Verified Purchase | Early Reviewer Rewards (What's this?)

Not long ago, I decided to move from a house with a doggie door to a third floor condo, along with my shih-poo, Jazz. After the move, Jazz started to suffer from separation anxiety and would bark constantly every time I left the condo. This was bad for both of us, so I decided to try the collar and now, each time he barks, the vibration and high-pitched sound come on, and he stops barking. I've watched him searching for the sound all around him, and have started using the collar in the car, if I need to jump out to a shop and don't want him to feel anxious. Excellent investment, easy to set up and modify and, most importantly, highly effective.

★★★★☆ Works well

Reviewed in the United States on August 4, 2020

Verified Purchase

Great fit, lightweight and the cube with the prongs is small, light and not bulky. We bought this for one bad barker out of 3 dogs. Unfortunately if another dog barks or if there's a loud noise the dog gets zapped. I guess we'll have to fool with it a while to see if we can find a balance.

★★★★★ We have become very fond of our dog now!

Reviewed in the United States on August 5, 2020

Verified Purchase | Early Reviewer Rewards (What's this?)

Three years ago we rescued a sweet-natured dog, who turned up at my office, and three months later the barking problem a real headache. He barked to go out, to come in, at visitors and at passers-by...he enjoyed barking and did so constantly. In despair, I tried other barking devices, but none of them made the slightest difference. I came across this collar by chance and decided to try it, since I had little to lose by this point. Amazingly, this collar really works. My dog is now far calmer and no longer barks all the time, so we are enjoying having him that much more. An excellent purchase!

★★★★★ Wonderful Product - Stress Relief for me and my dog.

Reviewed in the United States on October 7, 2020

Verified Purchase

My dog barked constantly half the night and all day long. I was at my wits end until I saw this product on Amazon. It is amazing the difference that it makes. Being able to get up in the morning and get ready for work without the constant sound of barking is just PRICELESS. We set it just to beep and vibrate and our dog, even after a week, only barks when someone comes into the driveway or he sees wildlife in the back yard. I like that he still alerts us but then stops right away when it vibrates and beeps. I would highly recommend this product. It is such a life saver for my family and for our dog, he is less agitated all the time now.

Sally Ball

★★★☆☆ Misleading description

Reviewed in the United States on October 9, 2020

Verified Purchase

This product is described as having two modes. I have read and reread the instructions and try as hard as I can I cannot find a way to change the mode to sound and vibrate. I am trying to use it without the shock and I do not see a way to do that. I have submitted questions and the answers I received said that they were unable to change modes.

There is also an issue where when my other dog without the collar barks it shocks the dog with the collar even though she is not barking.

Unless I can get help with this issue I cannot recommend this product.

★★★★★ Great invention. It really works!
Reviewed in the United States on October 4, 2020

Verified Purchase

This thing works like a charm. It won't go off if my other dog is barking just the one who is wearing it. It has 5 sensitivity levels and the 1st level is doing the trick so far. This product is harmless to the dog and actually trains them at the same time. The initial beep is enough to train the dog to stop barking and, my dog never reaches the level of actually getting shocked. It also has the option to only use the beep and vibration and no shock. It worked instantly, the same day I put it on him, he started barking, then, the beep went off, and he immediately stopped. I guess the beep freaked him out. I gotta say he's very sensitive to noise. A few minutes later he barked again, I don't know how but I think he knew the beep was going to make this annoying sound every time he barked, and he behaved better and better every day after that. I can't complain. This collar has worked for my dog without even having to actually use the shock function. I'm impressed how even though I put this on the lowest setting it's working great on my dog.

★★★★★ Good collar, Ive paid twice this much for training collars half as good.
Reviewed in the United States on October 4, 2020

Verified Purchase

Great bark collar, awesome choices of settings, and strengths, good battery life, collar itself is good quality material. We train dogs of all shapes, sizes, and levels of naughty and so far this is working great on both an unruly Maltese (a small breed), as well as an insanely hyperactive 90lb pitbull.

★★★★★ Buy it for those outspoken pups
Reviewed in the United States on September 26, 2020

Verified Purchase

We only used it one day and my dog has already calmed down his barking. He is a chi-terrier, very very territorial and outspoken. I will say that setting the shock don't shock feature is a tad bit difficult so he did get shocked once but after we figured out the missed step a vibration and the beeping is all he requires and a reinforcement is provided when he decreases from his "attack" positing lol and goes to his bed when I open the door. My dog is 18lbs and the collar fits perfectly. Also for us the colors were perfect bc they match his outfits lol.
