Pet Howling Solutions Specialist

The Elite Outdoor Ultrasonic Bark Control teaches your dog or your neighbor's dog to stop barking, giving you peace of mind. Whenever a dog barks within range of the device, the dog will hear a high-pitched sound that's inaudible to humans. Much like a dog whistle, the ultrasonic sound is harmless yet annoying, which reminds the dog to stop barking. The unit can be programmed to turn on and off at specific times, just like an alarm clock. This helps prevent dogs from becoming desensitized to the sound. The bark control unit is disguised as a birdhouse and can hang in a tree, on a fence post, or anywhere outside. One unit could cover a 1/4 acre yard. Add more units to cover a larger property.

Usage:

Hanging or mounting this bark control device on a tree, wall or fence to keep your own dog or your neighbors dog from barking.

Make sure the microphone is less than 5 feet high and is facing the direction of the barking dog.

Safety materials:

Suitable for indoor and outdoor use

Best Use Tips

- Place the unit no higher than 5 feet from the ground.
- Face the front of the device towards the dog.
- Make sure there aren't any large objects between the device and the dog. The sound doesn't travel well through walls.
- Don't use this bark control device on dogs who are deaf or hard of hearing. They won't respond to the sound.
- Turn off the device when not in use. This helps prevent dogs from becoming desensitized to the sound.
- Add additional units to cover areas larger than 1/4 acre.
- Don't use this product inside your home. The ultrasonic sound will bounce differently indoors.
- To improve battery life, use the timers to turn on the unit only when the dog barks or turn the unit off when the dog is asleep.
- While the unit is weatherproof, it shouldn't be submerged in water. If water enters the microphone, the device will stop working.

Product description

**FEATURE:** Digital display -- The digital tube shows the gears of vibration ,shock and sensitivity. Adjustable mode -- 1-7 level adjustable mode or the actual needs of your dog. Automatic protection -- an automatic protection mode to deactivate the collar if activated. 1. That allows you to keep an eye on your dog even in low visibility and also can protect your dog's life from cars etc. Testing 1 grade. 3.Wear the tester on the conductive silicone prongs behind collar. 4.Please send a short voice like "wow" (as short as possible) dogs,please test more time. Specifications: Item Size: 2.6 X 1.5 X 1 inches Item weight: 70g Package weight: 120g Collar Perimeter Size: 18-22 inches Collar 1 x Test Light 1 x USB Link 1 x Instruction NOTE: 1, Charge it before first use (adapter less than 1A). 2, If you need to adjust the case it get a raw edge. 3, Don't wear it exceeding 10 hours a day, or it may affect the dog's skin. 4, Don't let the dog alone at first several days. 5, The ultrasonic prongs must be against your dog's skin to work,you just can fit one fingers snuggle between the neck and collar. 6, Please take off your dog's collar when you are not at home.

-Zippered pocket in the front is very handy. It wasn't a big selling point and am very glad it's there! I slide my phone or some money walking to a coffee shop or something like that. I even tuck a spare key in there!  
-Well-made and the material is easy to clean

I really like this bag since it carries everything I need when taking walks with treats, have poop bags on one side and use the other side for keys if we're walking to Petco. I attach a D-ring with keys and a leash though because after less than three months use, the bottom of the bag cards in ripped open without any undue pressure. Glad I didn't

\*\* Tuff Muff stands by their products and responded to me by saying they were very pleased with this customer service and have already received 5 stars because I do like it.

★★★★☆ **Everything in one place**  
Reviewed in the United States on October 8, 2015  
Verified Purchase

Just what I needed... I have two puppies and I was using a fanny pack and one place a jumbled mess. I now have a spot for treats(no ziploc anymore) I can stash my poop bags (lifeproof) it's not able to zip it close but it fits securely and snugly. The poop bags and space enough to add a second bag on top of the first to allow me to hold keys on one side and clicker on other. I give it 4 stars not 5 because I find the belt just a little flimsy, but it's the only thing out there that fits every need when I walk out the door.

Katherine B. Top Contributor: Pets VINE VOICE

★★★★☆ **PERFECT but with one flaw...**  
Reviewed in the United States on December 24, 2015  
Verified Purchase

I really like this treat pouch - the Tuff Mutt is well made and the strap - I can wear this around my waist or over my shoulder. However, else when you have 3 dogs to walk! The design is awesome - has the large pockets (would be impossible to make them larger due to the drawstring top are fantastic features! The material is wonderful. The only reason this great product lost a star? I've tried a couple of times when left in the pouch. My dogs are small, but there are 3 of them and a lot of them. I would actually have deducted half a star for this, but I left with 4 stars. Still a GREAT product! Smartly executed, love it. (no more "treat muck" left on my phone!), adore being able to use it as a thing I have to attach to the leash, and I think it's awesome that it can be cleaned up so easy! If you use something like Milkbones for treats, it's easy. However, if you use moist treats, it's something to be aware of. I would spend my life putting treats in the Tuff Mutt. The only flaw is that it's not

★★★★☆ **Works most of the time!**  
Reviewed in the United States on August 4, 2020  
Verified Purchase

Update: battery lasted three weeks and then upon the first time I tried to use it, rendering the product useless.

Although it has not stopped barking completely in my house it's definitely worth it. It's easy to use and only runs on one 9 V battery.
