I received the item and it was easy to assemble. I tried it and found it to be pretty good. The barking sound of the dog was obviously less at night, and there was no harm to the dog. The operation is simple and safe. It is a good product and worth buying.

The ultrasonic bark controller uses high-frequency sound to reduce excessive barking in the range of hearing; suitable for dogs over 6 months and 50 feet or more.

★★★★★ I only turn on when they are out of control and it did works perfectly

This really works! My 4 dogs are very quite now. They barked at everything sometimes at nothing. I have been having trouble training my dog to not bark at every guest, this is getting the job done. I have 4 little puppies, and they like to bark at everything. Though they look cute, their barking are annoying sometimes. So I bought this to control their barking, when their barking bother us and our neighbors. I only turn on when they are out of control and it did works perfectly
