★★★★★ **Nice habitat for monarch caterpillars!**  
Reviewed in the United States on September 14, 2020

**Verified Purchase**

I used this the whole season, It's super light, so I put a plant pot in the bottom, and used a zip tie through the top zipper to stabilize it and attach it to a fence (with the plastic side to the fence so the cats don't fry) so I could keep it outdoors in controlled sunlight. It worked and it was easy to clean up: just shake out the frass (easy, since I had a paper on the bottom,) hose off and let dry, fold up and put away! The wires are sturdy! In fact, be careful while rolling it up that it doesn't pop back open and smack you in the face, just saying. :D

★★★★★ **Caterpillar home**  
Reviewed in the United States on April 14, 2020

**Verified Purchase**

This is a wonderful size. We had a lot of spiny elm caterpillars that needed to be relocated from my elm tree and they seem pretty happy in this habitat. Love the big door. Easy to add new branches. (Not sure how to clean the bottom while they are in it, but it will be easy to clean after they turn into butterflies and I release them.)

★★★★★ **Great visibility, super easy to clean, very sturdy**  
Reviewed in the United States on May 3, 2020

**Verified Purchase**

We use this for an isolation spot for our parakeets. We had one that was sick recently and it was great for setting up and cleaning out sick birdy poops with just a wet wipe. It's very easy to see through and sturdy enough for a large blanket to cover it entirely and not bend. Definitely would be super easy to clean and set up/take down. It's about the size of a big microwave for reference.

★★★★☆ **Not exactly like photo**  
Reviewed in the United States on May 16, 2020

I was disappointed when this habitat arrived because as you can see, the door is much smaller than pictured. Otherwise, it seems sturdy, and lives up to all the other features listed.

★★★★★ **Catapillars are happy and safe**

I loved most things about her but could have been wider or just as wide (2ft) as the length. My caterpillars are safe and that's what matters most.

★★★★★ **Just right for my monarchs!**

Reviewed in the United States on November 1, 2020

Verified Purchase

This cage was just what I needed for raising a batch of monarch caterpillars. I would have preferred black mesh to white, for ease in seeing the butterflies as they emerged. This did the job, though- and at a good price with quick shipping.

Became home to several monarch cats which have since been relocated to a larger habitat. Sturdy and easy to clean. Keeps all pests out.
